THE OLD RELIABLE
Established For 15 Years.TWO WOMEN AMONG
THE NATURALIZED

Others Who Subscribed Allegiance to British Crown.

It is not often that women apply for naturalization. This month two have been granted certificates.

Fifteen new citizens in all were admitted by Judge Lampan, or fourteen, to be accurate, as one was a British citizen who had taken out first papers and was readmitted. There were three Americans in addition to him, one Prussian, four Japanese and six Chinese.

MINISTERS AND
INDIAN RESERVE

(Continued from page 1.)

In addition to the letter which the Minister of Mines wrote on May 13th the Premier wrote President Leiser as follows, under date of May 13th:

Dear Sir—I have the honor to acknowledge the receipt of your telegram of yesterday. I deem it preferable to answer you by writing rather than by wire. Your suggestion is that the government of Canada should bring immediate legislation for the removal of the Songhees from the reserve which they occupy in the city of Victoria.

I must observe to you that this matter is not of such an easy solution as you suppose. It has been the policy of the British authorities from time immemorial to deal with the native element on the continent with absolute good faith. The Songhees have been placed in possession of the reserve which they hold under a pledge of the British crown; to remove them forcibly would be absolutely contrary not only to the policy invariably followed in British countries but would involve a breach of a word of the crown.

These considerations are sufficient, I am sure, to make you realize that the matter is one which must be adjusted, not by force, but by negotiation. Yours respectfully,

WILFRID LAURIER.

PERSONAL

Oscar Promis has returned from San Jose, Cal.

Geo. N. Gowen and wife are leaving this afternoon for Harrison, where they will spend two weeks.

Dr. Allen and daughter, of Arthur, Ont., and Miss Allen, of Vancouver, are visiting their son and brother, E. D. Allen, 820 King's road.

Austin M. Brown, wholesale saddle and harness manufacturer, of Dawson, arrived in town via St. Michaels and Nome, on Saturday last, and is visiting his parents, Mr. and Mrs. M. C. Brown.

Mr. and Mrs. B. J. Hales, who are spending the vacation with Mrs. Hales' sister, Mrs. J. H. Yeo, left yesterday afternoon for Seattle to attend the fair. Mr. Hales, who is principal of the District Normal school of Magitoba, will attend the Dominion Teachers' Convention to be held here on July 15th to 16th.

A Niagara Falls, N. Y., dispatch says: The body taken from the river at the Maid of the Mist landing on Monday was identified as that of Alford Fortier Schelling, a member of one of the best known families of the city. It is not known whether he is a suicide or met with an accident.

THIRD PARTY GETS
NO COSTS FROM EITHERInteresting Point of Practice
Decided by Mr. Justice Martin.

Another ruling as to costs was handed down by Mr. Justice Martin this morning. This was in the case of Baker vs. Atkins and Martin (third party), heard some time ago. The plaintiff's bakery on Ladysmith street was injured by fire last winter and he sued the contractor who built it, alleging a defect in the oven. The contractor brought in the builder of the oven as a co-defendant. The plaintiff lost and the third party is looking for his costs, but fails in his effort to get them. In deciding on the point His Lordship says:

"This is an application by a third party for an order that his costs should be paid either by the plaintiff or by the defendant. It is conceded that the question is wholly within the discretion of the court. The case of Hanbury vs. The Upper Inny Drainage Board (1882), 2 L. R. Irish, 21, is one wherein the wide extent of discretion is exemplified, because there the plaintiff was ordered to pay the third party's costs, though the application as framed was to make the defendant pay them.

"On the other hand, the plaintiff's counsel herein cites the case of Williams v. Buchanan (1881), 7 Times L. R. 226, wherein the court of appeal decided, under circumstances which in several material respects resemble the case at bar, that the third party was not entitled to his costs from either of the original litigants. It was therein said by the Master of the Rolls that the question depends on the circumstances of each particular case, and that the third party had chosen to appear separately and by different counsel, though 'no one is right underly to increase the costs of litigation except at his own expense.'

"The present question I have found far from easy to decide, but after careful consideration of the authorities cited, and the written request for the third party's guarantee and the evidence relating thereto, I can only reach the conclusion that I am unable to say the case at bar is stronger in the third party's favor than was Williams v. Buchanan, and it is quite different in principle from Hanbury v. Upper Drainage Board; therefore I shall make no order for his costs."

VICTIMS OF INDEPENDENCE
DAY CELEBRATIONSLater Reports Increase List of
Casualties in United States.

(Times Leased Wire.)
Detroit, Mich., July 6.—One man burned to death, one man drowned and sixty-two persons injured by fireworks is the record to-day of the Independence Day celebration. Numerous small fires, totaling a considerable property loss, were another result of the festivities.

Three Hundred Injured.
Philadelphia, July 6.—Three hundred serious hospital cases, many of which will prove fatal, and one death is the result of the Fourth of July celebration.

Killed by Street Car.
Great Falls, Mont., July 6.—Charles L. Waters, a postal clerk, was the only person to meet with a fatal accident during the Independence Day celebration here yesterday. Waters had placed some detonating bombs on a street car track and was waiting to see a car pass over them when a small boy started to brush them from place.

Waters rushed into the street to prevent the boy from moving the bombs and failed to see an approaching car. He was knocked down and ground to pieces by the car.

NINE MEN BLOWN
TO PIECES IN MINE

(Times Leased Wire.)
Trinidad, Col., July 6.—Nine men were instantly killed by a gas explosion in a coal mine near here to-day. They were descending into the mine when the explosion occurred. Their bodies were blown to bits.

FATALLY SCALDED
DURING YACHT RACE

(Special to the Times.)
Brockville, Ont., July 6.—A fatal accident terminated the yacht race near Clayton last night in the heart of the Thousand Isles. A steam yacht owned by George Eclat, proprietor of the Waldorf-Astoria, New York, and A. R. Peacock's were racing, pushed to the limit, when a steam pipe on the boat owned by the former, burst, terribly scalding Fireman Guy Valles and Engineer Forter. The former was fatally injured, while the latter will lose his eyesight.

QUESTION OF PRECEDENCE.
Dispute Over Receivership of Butcher Business in Chemanus.

A short time ago Judge Lampan appointed Sheriff Richards as receiver of the business of A. Howe, butcher, Chemanus, for the purpose of collecting the book debts. This was done on application of Sydney Child, at the instance of Goodacre & Son, a large creditor.

On receipt of a notification from the sheriff Howe forestalled him by assigning for the benefit of his creditors. This morning Mr. Child applied for Howe's commitment to jail for contempt of court in disobeying the order making the sheriff receiver. There was considerable argument between Mr. Child and Victor Harrison, for Howe, and the assignee, as to whether the assignment did not take precedence.

This afternoon Judge Lampan gave his decision, holding that the assignment took precedence of the receivership, and accordingly dismissed the application.

LACEMAKER TOLD
CONTRADICTORY STORIESGirl Continues Evidence During
Hearing of Charge
of Theft.

(Times Leased Wire.)
Chicago, July 6.—Ella Gingles, the pretty 20-year-old Irish lacemaker, who is on trial charged with robbing Miss Agnes Barrette, her employer, declared to-day that an attempt had been made to compel her to go to Tom Taggart's place at French Lick Springs, Indiana.

The girl was mercilessly cross-examined by Assistant States Attorney Short to-day, and every point of her sensational story to the effect that Miss Barrette and a Mrs. Cecelia Kenyon had attempted to compel her to become a "white slave," was attacked. Short asked for the minutest details of the scene the girl alleged took place in Miss Barrette's room in the Wellington hotel, on the night of June 4th.

After the girl had declared that she had been attacked by her employer, and that Mrs. Kenyon had tore the clothes from her back while she was struggling to escape, Short asked if any names were mentioned by the woman while this was happening.

The girl replied: "Yes," and Short asked what names were used. "Tom Taggart," the girl reiterated.

"Wasn't it suggested to you that you use that name?" asked Short. "No sir, I remember that was the name used," she insisted.

"What was said about Taggart?" asked the state's attorney. "They said I was to go to his place at French Lick Springs, Ind.," she said.

The witness then described revolted scenes, which she alleged took place in Miss Barrette's room.

Short tried to show that the girl imagined the things she described but this was indignantly denied by the girl.

The girl then described an alleged attack upon her by a mysterious man on the night of February 16th, upon which night she was found bound and gagged in a bath room in the Wellington hotel. She said that she finally managed to throw a rope over the transom, which led to her discovery and release.

This afternoon Short savagely attacked the story by the girl and finally succeeded in getting her to admit that she had told a story to the police when they found her in the Wellington bath room and had then changed it and told another.

FORMER COMPTROLLER
RETURNS TO SEATTLEJohn Ripplinger, Who Disappeared in 1906, Arrives
From Honduras.

(Times Leased Wire.)
Seattle, Wash., July 6.—John Ripplinger, former city comptroller of this city, who went to Honduras in the fall of 1906 and who was later found to have been short in accounts alleged to have been approximately \$41,000, returned to Seattle this afternoon to face the charges.

The shortage was not discovered until May 5th, 1907. Since that time Ripplinger successfully fought extradition as there is no such treaty between the United States and Honduras. Attorney Will Morris two years ago stated his client would return and make good the shortage charged against him or face the complaint and prove his innocence.

To-day Ripplinger has made good. Ripplinger went immediately to Police Judge Gordon's court, where he was arraigned on a charge of embezzlement. He was released under bonds of \$10,000, furnished by two prominent citizens.

RESULTS OF RACES
AT HENLEY REGATTA

(Special to the Times.)
London, July 6.—The fourth heat of the diamond sculls was won at Henley to-day by Stuart, who beat Drake by a length in 9.31. In heat five Thompson easily beat Hope in 9.29.

In the grand challenge cup Jesus College beat London Rowing Club by a bare length in 7.57.

In the diamond sculls, heat six, Ede beat Cloutie by a length in 9.12.

In heat two of the grand challenge Magdalen College beat the Thames R. C. easily in 7.46.

AT THE WILLOWS.

First race—Four and a half furlongs; maiden; two year old fillies:
1. Miss Plenie.
2. Third Chanor.
3. Fay Man.
Time, 57.

Second race—Six and a half furlongs. Three-year-olds and up:
1. Prestige.
2. Burelie.
3. Col. Bronsten.
Time, 1:34 4-5.

RELEASED ON BAIL.

(Special to the Times.)
Toronto, July 6.—Dr. Jim Pollard, convicted of performing an illegal operation and granted a new trial by the Court of Appeal, was released on \$5,000 bail this morning, the amount being almost a record.

PERSIAN SITUATION.

St. Petersburg, July 6.—The report that the rebel army captured Teheran yesterday cannot be confirmed to-day as wire communication with the Persian capital has not been restored.

In some quarters it is thought the report of the capture of the city was probably due to a premature announcement at the headquarters of the rebels.

YE OLDE FIRME
HEINTZMAN & CO.
PIANO

The quality and carrying power of the Heintzman & Co. Piano is one of its outstanding recommendations by the world's greatest musicians.

Stands peer in all the best essentials that make an ideal piano. It is adapted to the playing of pieces requiring great technique, because it possesses a scale of remarkable evenness, and a tone of characteristic purity.

For over fifty years this piano has been favorably known to the musical world.

To Paving Contractors.

Tenders, sealed, endorsed and addressed to the undersigned, will be received up to Monday, the 13th inst., at 4 p.m., for paving, grading and draining Wharf street from Government street to the north side of Johnson street.

Paving to be of vitrified brick, laid on cement foundation. Tenders will be required to send in with their tender, a certified check on an incorporated bank of Canada the sum of \$500, made payable to the City Treasurer, which check will be returned to unsuccessful bidders. After the contract is signed, the successful bidder's check will be retained as security until the completion and acceptance of the work. The Corporation will supply the necessary bricks free on the wharf. The time for completion of work three months from date of signing the contract. The work to be done to the satisfaction of the City Engineer and in accordance with the specifications which can be seen at the Purchasing Agent's Office. The lowest or any tender not necessarily accepted.

W. W. NORTHCOTT,
Purchasing Agent,
City Hall, July 6th, 1908.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Post Office Buildings, Vancouver, B. C." will be received at this office until 5.00 p. m. on Wednesday, July 22nd, 1908, for the work mentioned.

Plans, specifications and form of contract can be seen and forms of tender obtained at the Department and on application to Mr. C. Tossell, Clerk of Works, Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, with their occupations and places of residence.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender is not accepted the cheque will be returned, and itself to accept the lowest or any tender.

By order,
NAPOLEON TESSIER,
Secretary.

A Department of Public Works,
Ottawa, June 30th, 1908.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

TENDERS are invited for a new
Women's Building, to be erected at the
Exhibition Grounds.

Plans and Specifications may be had at the office of D. C. Frame, Architect, Five Sisters block.

Tenders to be in on Saturday first at noon.

The lowest or any tender not necessarily accepted.

CORPORATION OF THE DISTRICT
OF OAK BAY.Tenders for Sidewalks and
Sewers.

TREE CUTTING IN OAK BAY

DISPUTE ARISES

OVER GIVING ORDERS

Reeve and Some of the Councilors Drag in on Action.

The fight for the trees in the Oak Bay municipality is still going on. A slight disagreement over the right of the Reeve to order the cutting down of trees after the council had ordered otherwise caused an interesting diversion at last night's meeting of the municipal council. At the previous meeting of the council, a fortnight before, a resolution was passed, on the suggestion of Reeve Henderson, forbidding the cutting down of any trees in the municipality without the permission of the council. Since that time some trees have been cut down on the road near Mr. Rattenbury's house, without that permission.

Everything had been very hum-drum at the council meeting until that stage of the proceedings arrived. When inquiries were asked for. Then Councillor Pemberton rose and asked by whose authority the trees had been cut down, referring to the fact that the council had otherwise ordered at the last meeting. The Reeve acknowledged that it was he who ordered the trees cut because they were in the way of making the road.

Mr. Pemberton took exception to his action, and a lively little scene followed in which it was made very clear that the council strongly disapproved the action of the Reeve. Councillor Noble defended the action of the Reeve, but Councillor Oliver intimated that all they wanted was an understanding that in future there would be no recurrence of the action.

Then as there seemed to be a deadlock and no one knew what to do next, Councillor McGregor moved a resolution providing the cutting of the trees in question, and it was passed unanimously. On the reading of the reports of the Roads committee it was shown that E. B. Marvin had received the contract to supply the municipality with certain oils; that a request from Messrs. Limited, for payment for the engine recently purchased from them was refused until the engine was put in perfect working order; and that, on the motion of Councillor McGregor, steps had been ordered to be placed leading down to the beaches at Oak Bay and Shoal Bay.

The water committee reported that the water supply had been taken over from the city on July 1st, and that all arrangements had been made for the new water commissioner, J. S. Floyd, to keep the books and undertake the work. The constable will read the meters, and Mr. Lanchick will be employed temporarily to make connections and do other work in connection with the distribution of water. On inquiry no one seemed to know whether or not the water was now being supplied in bulk, some of the councillors maintaining that it was and others that it was not yet turned on. The water committee was asked to define the duties of the water commissioner.

Several by-laws were read the first three times and considered in committee, and tenders were ordered to be called for the construction of sewers on Foul Bay road, Chaucer street and Byron street, and for the construction of concrete sidewalks on Oak Bay avenue, Foul Bay road, York Place and Saratoga avenue. The council then adjourned.

OLD FOLKS COUGHS.

Tells of a Sure Cure and a Never Failing Comfort for Colds, Coughs, Catarrh.

Mrs. M. E. Walford, wife of a well known grocer in East Sheffield, writes: "For three years I suffered with a hard racking cough and bronchial irritation, which annoyed me so much at night I couldn't sleep. I tried many remedies, catarrh tablets, sprays, snuffs, etc., but they only helped for a short time. Catarrhazone brought me wonderful comfort from the first. I inhaled its balsamic fumes every hour or two and am now free from any trace of cold, bronchitis or catarrh. I can go out in all kinds of weather and don't take cold."

There is no remedy so certain and safe as Catarrhazone, but being a good remedy it is limited. Beware of substitutes. Large Catarrhazone lasts two months, price \$1, smaller size 50c. All reliable dealers or the Catarrhazone Co., Kingston, Ont.

BRONCHITIS—ASTHMA. "For ten years," states Capt. McDonald, of Kingston, Ontario, "I have been a terrible sufferer from Bronchitis and Asthma, and often it was so bad that for nights at a time I couldn't sleep. I spent hundreds of dollars on doctors and medicines, but a one dollar outfit of Catarrhazone cured me. Have no bother now from any old troubles."

The reason Catarrhazone is so successful is because it's healing balm and vapors get at the root of the bronchial irritation—right where the disease has its root. Other remedies work through the blood or the stomach—Catarrhazone works directly on the diseased membranes and always does cure Asthma, bronchitis and Catarrh. The dollar outfit of Catarrhazone contains two months' treatment, and invariably cures; small trial size 50c, all dealers, or the Catarrhazone Co., Kingston, Ont.

FLORENCE KINRADE MARRIED.

Wedded to C. M. Wright in the City of New York.

The last chapter of the Kinrade murder mystery was written after the last session of the coroner's jury at No. 3 police station, says the Hamilton Herald of Tuesday, June 25th. Since that time interest has waned in it, till it almost vanished. But while the story of the mystery itself was practically brought to a close then the thread of the romance that ran through it and relieved the sombre hue of the dreadful affair lived on, and it may now be written as the sequel to the other. This morning news came from New York of the marriage of Miss Florence Belle Kinrade, the central figure in the case, to Clarence Montrose Wright, the young divinity student whose attention to her attracted so much attention during the investigation. The wedding took place in the Madison Avenue Methodist church on Monday, June 28th, the officiating clergyman being Rev. Dr. Wallace McMullen.

STAIR-CLIMBING INJURES HEART

Scores of Pupils Compelled to Leave the Spokane High School.

Spokane, Wash., July 6.—As a result of injury to the heart, caused by excessive stair climbing in the Central High school of Spokane, scores of pupils have been compelled to leave school according to physicians of this city. Heart trouble has been increasing among the girls of the high school and its cause is traced directly to the overstrain of stair climbing in the school building.

"As to a remedy for this condition, that will have to be left with the school authorities," said Dr. Ralph Hanson, who has treated two cases of heart strain from that cause. Many of the principals and teachers have been discussing this problem for some time past.

"I think it a mistake to use a building as a high school more than two stories in height. I take this view in regard to the new North Central High school. In the high school the pupils are required to change rooms at the close of each fifty-minute period, often being required to go from the basement to the top story several times a day." Dr. William L. Hall, of the board of health, says "Climbing of stairs aggravates any existing weakness of the heart."

FRENCH TARIFF REVISION.

Minister of Commerce Says Government Favors Policy of Commercial Agreements.

Paris, July 6.—M. Cruppi, minister of commerce, as the government's spokesman, defined the government's position towards the proposed tariff revision in an important speech in the Chamber of Deputies yesterday. He insisted primarily upon close union in the economic and political relations of France with foreign countries. The French government favored a policy of commercial agreements, which pure protectionists as well as free traders rejected, and constantly opposed any except a moderate and prudent revision which would not compromise economic relations abroad.

The minister contended that a customs policy was not a necessary factor in the economic development of nations, but in the midst of present commercial strife, France, he declared, must be in a position to defend herself. This could be achieved by a policy of energetic commercial expansion, under a system of reasonable protection, which would permit of contractual elasticity. Above all, talk of reprisals should be avoided, as they often reacted. France could not afford to jeopardize her export trade of \$1,000,000,000.

For the purpose of negotiation the government needed a wider divergence between the maximum and minimum rates than the present tariff afforded, but he thought that the proposed fifty per cent, in many cases was too high.

FARMER'S DAY AT FAIR.

Elaborate Programme is Being Arranged for September 8th.

Seattle, Wash., July 6.—Parades, picnics, music, fireworks and sporting events will mark the celebration of Farmer's Day at the Alaska-Yukon-Pacific exposition on September 8th. G. D. Wilson, of Pough, Ill., has been appointed director general of the day, and is preparing an elaborate programme in which all farmers of the Northwest will be interested.

The morning parade at the exposition on Farmer's Day will be participated in by agriculturists from Washington, Idaho, Oregon and British Columbia. Then will come the address of welcome by President Chubbuck. Shortly after 12 o'clock the farmers will assemble on the grounds near the shores of Lake Washington for a basket picnic.

During the afternoon it is proposed to have an unusual feature known as "The Bells of Christendom," in which 700 young girls from various parts of

the United States will take part. Wire connections will be made with bells in Seattle and about the cities of Puget Sound, and at a given signal the young girls will press electric buttons ringing hundreds of bells.

The rainbow banquet in the evening will be an international affair for invitations are to be sent to foreign countries to have representatives present on Farmer's Day.

Farmers from all over the Northwest will come to Seattle in great numbers for the celebration of Farmer's Day.

FUGITIVE PETITIONS GOVERNOR FOR PARDON

Says He is Innocent of Crime for Which He Was Sentenced to Death.

Atlanta, Ga., July 6.—Governor Brown is pondering over the request for a pardon he has received from a fugitive who has written to him, saying that he escaped hanging at Atlanta in 1894.

The man says he was a member of the convention which nominated Brown for his present office. He says he has changed his name and can continue living as a respected citizen as long as he likes, but he prefers to have his conscience clear. He declares that he is innocent, and if pardoned he can prove that he had nothing to do with the crime for which he was sentenced to death.

He said that he escaped from jail at Atlanta a short time before the date set for his execution.

VAGUE PAINS POINT TO RHEUMATISM

There is no disease more sneaking, treacherous and insidious than rheumatism,—to-day you're well—to-morrow perhaps in bed. The pain may settle in your back, arms, legs, thigh bones, knees, fingers—not even the heart is exempt.

Nerviline is the cure—a few vigorous rubbings with this trusty liniment proves what wonderful healing powers a good medicine can possess. Deep into the aching tendons and muscles, right through the bones and sinews goes the penetrating, pain-destroying properties of Nerviline. Failure is impossible—Nerviline always cures rheumatism, sciatica, neuralgia and lumbago—in fact there is not an ache or a pain that a liniment should cure that won't yield quickly to Nerviline.

Don't hesitate to try "Nerviline"—it has restored thousands of despairing, broken-down men and women, has astounded physicians with its rapid cures, and in your case, as in others just as bad, Nerviline will cure quickly. Refuse substitutes—use "Nerviline" only. Large 25c. bottles. Sold by all dealers.

BOATING FATALITY.

Young Man Loses His Life When Sail Boat Capsizes.

San Rafael, Cal., July 6.—E. T. Jeffries, the nephew of ex-Senator Thomas Mitchell, of San Francisco, and himself a resident of the city, was drowned Sunday afternoon near Black Point, when a sail boat containing Jeffries and several friends, capsize, throwing them into the icy waters of San Pablo bay. All except Jeffries saved themselves by clinging to the bottom of the overturned craft. Jeffries was caught underneath the boat and was never seen again. The young man was 22 years old and a carpenter.

MURDERER SENT TO ASYLUM.

Regina, July 6.—Particulars of the shooting of Fraser near Invermay and Margo indicate that the assassin was a lunatic, and that he is on his way to Prince Albert jail. The police handled the case promptly, and Fraser was arrested the day after the crime was committed. He is demented, and had threatened to kill four of his neighbors. Fraser was his first victim, receiving four bullets in the back.

BOAST LEADS TO ARREST.

Chinamen Implicated in Stabbing Affray Remanded at Vancouver.

Vancouver, July 5.—Gow Sing Dick, one of the Chinamen alleged to be implicated in the gambling joint riot in Chinatown a few nights ago, when Wong, a gambler, was stabbed with a butcher knife, was to-day remanded for a week by Magistrate Williams. Dick was captured at Agassiz on Saturday night by some of his countrymen who were making efforts to capture the hunted men, on account of the rewards which Chinese societies have posted. Dick's own information led to his capture. Thinking the Chinese of Agassiz would befriend him, he told boastfully of his part in the cutting affray. The Chinese telegraphed to this city and were told to imprison Dick. They locked him up, and Provincial Constable Lane was sent after him. Chang Hing, the other Chinaman the police seek, is still at large, and Dick disclaims knowledge of his whereabouts.

LUMBER ORDERS.

Seattle, July 6.—Washington mills are receiving heavy orders for lumber. The Chicago, Burlington & Quincy railroad has just closed a contract with one mill for 1,500,000 feet of lumber, and now the Puget Sound navy yard is in the market for 545,000 feet. The railroad company's order is to be delivered at half a dozen points where there are shops. The contract calls for lumber for boxcar building and material consisting of siding, flooring and joists. The order for the navy yard is marked "urgent," and is one of the largest bills ever called for from that yard. It consists largely of planks and timbers, and will be an easy order to handle.

FILIPINO MUTINEERS TAKEN.

Only Three of Band Succeed in Eluding Constabulary.

Manila, July 6.—Advice from Gen. Bandholtz, of the constabulary, dated Zamboanga, state that Capt. Gillesseuer of the constabulary force, co-operating with Lieut. William H. Noble, commanding a detachment of the 23rd infantry, have captured seven of the mutineers from Davao, including Sergt. Rodriguez, who assumed command of the band when Sergt. Academia, the original leader, was killed. This leaves but three of the mutineers unaccounted for.

EVIL OF SUBSTITUTION EXPOSED.

A dealer substitutes because he makes more profit on an inferior article. A local citizen was induced to take a substitute for Putnam's Corn Extractor, with the result that the substitute burnt his toes and failed to cure. Putnam's contains no acid and is guaranteed. Always get Putnam's—no other.

SEEKING SUPREMACY.

London, July 6.—The Bishop of Salisbury, who was one of the deputations of clergymen who recently made a tour of Germany, addressing the Anglican and Foreign Church Society, yesterday said that he did not think there was any real desire for war among the Germans, but at the same time he found a considerable desire for the power of making war and for the possession of such naval and military supremacy as would enable the country to dictate to Europe in a crisis, or, if necessary, to dictate to the United States.

The People Back of Sunshine Furnace

Sunshine Furnace is the triumph of sixty-one years' experience—growth from a small tinshop to 16½ acres of floor space, from a half dozen artisans to 1,500, from an annual wage sheet of \$4,000 to one of \$670,000, from a capital of energy to one of \$3,000,000, from obscurity to recognition as Largest Makers of Furnaces in the British Empire.

SUNSHINE FURNACE

was placed on the market the first furnace to be wholly and solely designed by a Canadian Company.

We employ a consulting staff of furnace experts, who are continually experimenting with new ideas in order that Sunshine Furnace shall not have to travel on its past reputation for goodness.

We buy materials in such large quantities that its quality is guaranteed to us. We have our own testing rooms, so that supervision of construction is exercised down to the finest detail.

WATER COMPLICATIONS.

If the rain which fell so gently and so benignly from the heavens last night had continued throughout the day it might have assisted materially in the solution of the water problem. And to be sure the people of Victoria and the city council would welcome such aid from any quarter. We observe that the City Barrister has given an opinion, on top of the opinion of another eminent legal authority (not the city solicitor) that the municipality has the power to expropriate the works of the Esquimalt Water Company, qualified by a further opinion that before proceeding to expropriate and take possession the assent of the ratepayers should first be secured. This is an eminently sound proposition, so sound and sane, in point of fact, that it might have occurred to an ordinary layman absolutely destitute of all learning in the law. Because it is obvious that if the council expropriated the works and the ratepayers refused to ratify the award, complications of a most serious nature would be sure to follow. The council apparently has the right under the acts of the legislature to expropriate. It can take possession of the lakes and reservoirs and watershed of the Goldstream Company; but it cannot compel the people to drink and to pay for the privilege of drinking.

What is the situation, therefore? We believe it is, to say the least, very doubtful whether the majority of the ratepayers of Victoria are in favor of expropriating the works of the Esquimalt Water Works Company at the present time. They have approved of the scheme of water works improvement now under way, and, we hope, nearing completion. They have also, by a very small majority of all the electors, decided upon Sooke Lake as the ultimate source of water supply. This last decision may have been taken under a misapprehension as to the cost of the work of establishing connection with Sooke Lake. If there has been misapprehension, nothing has been done to remove it. The situation, therefore, is that a majority of the people are prejudiced against Goldstream, owing to the circumstances under which the private company obtained possession of that property; they hope that the improvements effected in the system, at present in use may establish the fact that it is sufficient for all needs for a few years to come; and that they might veto any proposition looking to the expropriation of the works of the Goldstream Company. These are features of the situation which ought to receive the deep consideration of the council—and we have no doubt they will receive that consideration before any definite action is taken.

BRITISH COLUMBIA UNIVERSITY.

Dr. J. D. Todd, a Victorian whose name already stands high in the ranks of medical scientists, and who, as our readers know, has taken a great deal of interest in the selection of a site for the proposed University of British Columbia, favors the Times with another communication on the subject. Dr. Todd's letter is printed elsewhere in this issue. On this occasion the communication is accompanied by an expression of opinion on the matter in which all British Columbians are concerned from another distinguished educationist, Sir Donald MacAlister. Sir Donald's position is firmly established in the academic realm and his experience is so varied that his opinions are entitled to great weight and will doubtless have a great deal of influence in determining the location of our prospective seat of learning. He is at present at the head of the University of Glasgow. He has had an extraordinarily successful university career. He is a most versatile man and is no less famous as an mathematician than he is as a physician. He is, in addition, a gold medalist of the Royal

Geographical Society. A list of the honors he has received and of the important positions he has filled is indeed an extraordinary one and no one is better fitted than he to speak of the mechanism of University administration. He received an hon. D. C. L. Durham, in 1905; Hon. LL. D. McGill, Toronto and Aberdeen, 1900; Glasgow, 1907; St. Andrews and Liverpool, 1908.

It may be well in speaking of Sir Donald to draw attention to the terms in which he was introduced upon receiving an honorary degree from the University of Liverpool.

"Liverpool had ever been eager to claim Sir Donald MacAlister as one of her most distinguished sons, because Liverpool was not minded to forget that it was the privilege of one of her great schools to witness and to hasten the dawn of these commanding and versatile intellectual powers which had won such signal and widespread recognition throughout the length and breadth of academic and scientific worlds. Few men had passed to distinction so victoriously by many paths. They thought of the severe abstraction of mathematical study, and remembered the Senior Wrangler and the first Smith's prizeman. They thought of the concrete investigations of medical science, of the achievements and the infinite possibilities of the applications of physiology and sanitary science to the health of the cities and nations; of the intricate and difficult problems of medical education and organization; and they found therein tribute of admiration to the brilliant, untiring and fruitful labors of the president of the General Council. They thought of the wide domain of university life and administration, and they particularly delighted to honor the distinguished Principal and Vice-Chancellor of the University of Glasgow. Thrice fortunate was that ancient university of the people in the north in having called to its service that varied expert knowledge and experience."

The wires are heavy-laden to-day with accounts of and comments upon the great contest between Stanley Ketchel and William Papke. The contest was a prize fight of course, although it was fought with gloves. It took place in San Francisco, also of course, because there are few places in the United States (to the infinite credit of that great country) in which such an exhibition of the innate savagery of man would have been tolerated by the authorities. But as California is very tolerant, all other parts of the continent must undergo the ordeal of the printed details of the Ketchel-Papke bout. The decision of the referee is described as an outrage alike against justice and the rights of the people who placed their money on the progress of the pug who was declared the loser. There are all kinds of people in this world, as publishers of newspapers understand and strive to take into account in their daily round and common task. A considerable number of these people like to read accounts of prize fights. The gorier the "go" the better they like it. They call it sport, and doubtless believe their diagnosis is correct. But the vast majority, we think, will be of the opinion that if the Ketchel-Papke fight had resulted fatally to both principals the loss to the world would not have been irreparable. This notwithstanding the admitted fact that there is nothing the great masses of the people hang upon with greater delight than contests in which physical prowess, courage and determination are the chief factors. The twentieth century ought to frown upon prize fighters. Their game is altogether too brutal.

It is pleasing to note that the annual slaughter on the 4th of July is declining. This improvement is not due to any inclination on the part of patriots to make less noise by exploding gunpowder, but to measures taken by some of the states to curb the exuberance of patriots. It is surely not seemly that one of the greatest and most advanced of the world's nations should be so nearly akin to another and much older, but very tardy, nation in its methods of celebrating great events. The Chinese also delight in a big noise.

The city barrister advises that before proceeding to expropriate the works of the Esquimalt Water Works Company the way should be cleared for the financial completion of the transaction. The advice is sound, which is something that cannot be said of a good deal of the counsel the civic fathers are tendered by other gentlemen learned in the law.

The natural tendency of taxation, and of everything else except wages, is upward. It is true we cannot have an up-to-date city without paying for improvements. At the same time it has not occurred to us that it is necessary to encourage the council of Victoria or the council of any other city to increase taxation.

France is keen for reciprocity of trade with other nations; but she does not desire to achieve results by the use of a club. In this respect she differs from another great republic, which has adopted the Big Stick with the idea of coercing other powers into submission to her terms.

Andrew Hughes, a logger, arrested yesterday afternoon on Johnson street while drunk and using obscene language, had two loaded revolvers in his pockets when taken to the police station. He was sentenced this morning to pay a fine of \$20 or go to jail for a month.

University Site

To the Editor.—Some months ago there appeared in your columns the first of a series of letters, which were written with the object of directing public opinion to the fact that it will soon be necessary for British Columbia to choose a site for the university which she is determined to possess. In order that this university may work under the best possible conditions, and so be in a position to realize its full usefulness, it is important that, in founding it, it be placed on the most suitable site.

Experience has shown that in the erection of public buildings in the United States and in Canada, local interests, those of municipalities and real estate agents, sometimes have had an undue share in the determination of the site upon which they have been placed. It is to be hoped that nothing of this sort will occur in the choice of a site for the university of British Columbia, because it is evident that the interests of no one individual, or set of individuals, should be especially considered in selecting a situation for an institution which is built for the people of a whole province and is supported by them. The position of British Columbia's university must be chosen without consideration of any interests other than those of the university itself.

The enclosed letter from Sir Donald MacAlister voices the opinion of one of the most eminent of those who hold that a modern university can best fulfill its functions if it be placed at some distance from a large town in a rural, or at least suburban, situation. I have taken the liberty of italicizing the last paragraph of Sir Donald's letter. It, to my mind, expresses a most accurate appreciation of the conditions under which we in British Columbia will establish our university. These conditions afford us an opportunity for creating a perfect institution. The fact that we do enjoy these opportunities should be a guarantee that we shall faithfully employ them, and that nothing will be considered in the choice of the site but the interests of the university and of the whole province which it is destined to serve.

J. D. TODD,
Associate Professor of Parasitology,
McGill University, Montreal.

The University, Glasgow,
June 15th, 1909.

Dear Sir,—You ask me to express an opinion concerning the most favorable situation for the new provincial university of British Columbia, and in particular to say whether I think it should be placed in one of the cities of the province or in the country at some distance from the city.

It happens that I have had experience of a university placed in a minor country town, and also of a university placed in a great city over twenty times as large. Each university has its special merits; but with reference to your question it is worthy of remark that the former is a national university and serves the whole country, while the latter has a certain local character, and is practically the university of a district. This is not I think accidental; the city university inevitably adapts itself to and is moulded by its special environment.

Now, from my knowledge of British Columbia, with its wide territory and almost national outlook to the future, I am persuaded that a university of the former kind will best meet its developing needs. Local colleges will doubtless grow up to fulfil the local requirements of present and future cities. But the central university of the province will have the best chance of rising to the level of its calling if it is freed at the outset from the pressure in one direction or another which a city cannot fail to exert. For just in so far as the university receives the impress of one particular city it will tend to be alienated from the sympathy and interest of other centres of population, and to that extent will cease to be the academic centre to which the whole province looks.

Moreover, a rural situation involves that the university shall be residential, and that I regard as a crowning advantage. It means that teachers and students shall to a large extent share in a common life, that they shall act and react upon each other as members of one family, that the interests of the academic community shall not be distracted from its single aim by interests that are unacademic and anti-academic. It means that during the formative stage the students are afforded opportunities of learning self-government and mutual consideration, and these in direct relation with their life and work as students. Out of class as well as in class they are being trained and disciplined for life, and acquire almost insensibly, along with the learning imparted by their teachers, the habits and character that make good citizens. The corporate spirit, which sets high value on the good of the whole, and makes that an object of generous ambition, has a chance to develop.

The city university misses this advantage to a great extent, and has little to set against the loss. The instruction it affords may be in no respect inferior; but it cannot offer the same education in any but the intellectual sense. As a place of preparation for actual life, and for service to the state in whatever capacity, I cannot doubt that the residential university is superior.

It is perhaps unnecessary that I should dwell on certain other merits of a country situation: they are sufficiently obvious. Beyond the advantages of a rural situation, however, beyond what the founders ever foresaw, conditions favorable to health and simplicity of living; freedom from city temptations and distractions, that necessarily impair the student's efficiency as a student, and diminish the educational return he obtains from his university years;—no one who has had experience in the work of higher education will think little of points like these.

In British Columbia the indications are clear that the conquest of nature, by agriculture, forestry, mining, and the sciences that bear on these, and are essential to their development, must claim a large share in the attention of trained and educated men. It is plain that the place where such men are trained should afford the freest facilities for direct study, observation and experiment under natural conditions. The study of such subjects

PANTAGES THEATRE.

Splendid Programme is Offered This Week.

A splendid performance was given at the Pantages theatre last night by the new attractions, each of which proved to be a pleasing surprise.
Amy Gottlieb & Co. presented "Government Bonds," a domestic comedy full of humorous situations, and kept the large audience in a happy state for twenty minutes. The play is one depending greatly on the ability of the players, and Amy Gottlieb and company certainly have everything desired in that line so far as "Government Bonds" is concerned. Jenkins and Price, two boys with dancing feet and sweet voices, simply took the house by storm. Kelly and Davie, colored spots from Seulgambia, are comedians, and quite so different from the ordinary that their side-splitting foolishness proves a decided novelty. Zech and Zech are by far the best gymnasts in their branch of the art. Roman ring and trapeze, that have appeared here this season, The new illustrated song and moving pictures are even better than ordinary, and the show taken as a whole is very good.

In the old country many things are so old and so well established that people have to make the best they can of them, and subordinate the ideal to the practicable. In Canada, and especially in the West, you have the opportunity of framing your ideals from the outset, and of adopting the best means for giving them free scope to fulfil themselves. In the particular instance of founding a new university, to serve a great and expanding national purpose, it would be mere prudence to take account of the experience of others, and at all costs to avoid at the beginning

Our Name Behind Our Clothing Is an Important Asset. It's Your Protection. Our Name Behind Our Furnishings Is Worth a Good Deal to You.

The funeral of the late John Wm. Nettleton took place this afternoon at 2 o'clock from the Hanna parlors, Yates street, where Rev. F. T. Tapscott conducted the services.

Word has been received in this city by Griffith R. Hughes announcing the death at Carnarvon, Wales, of his sister, Mrs. Kate Jones. Deceased was the wife of Mr. Jones, proprietor of two of the leading Welsh papers. Her husband and two children survive her.

A large number of members of Far West Lodge, No. 1, and Victoria Lodge, No. 17, Knights of Pythias, left on Sunday's boat for Seattle to attend the sessions of the Pythian order, which are being held in Seattle this week.

The new four-story brick warehouse which has been erected by the W. S. Fraser Co., Ltd., adjoining their premises at the rear on Bastion street, is now being occupied by them. The new block will be used for the purpose of storing heavy materials.

The remains of the late John Russell, who was killed on Friday last when testing a boiler in Vancouver, have arrived in this city to-day for interment. Deceased was born in Scotland, and was 55 years of age. He was well known throughout this city, having been a resident in Victoria for nearly 20 years. He leaves to mourn his loss a wife, three sons and two daughters. The funeral will take place to-morrow afternoon at 2.30 o'clock from the Hanna parlors, Yates street. Services will be conducted by Rev. Leslie Clay.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, July 6—5 a. m.—A trough of low barometric pressure extends from this province to Colorado and rain has been general over the Pacific slope and across the United States to the Mississippi valley. Thunderstorms will occur in the prairie provinces to-day.

Forecasts.
For 24 hours ending 5 p. m. Wednesday. Victoria and vicinity—Moderate to fresh southerly and westerly winds, mostly cloudy and cool, with showers.
Lower Mainland—Mostly cloudy and cool, with rain.

Reports.
Victoria—Barometer, 29.90; temperature, 53; minimum, 51; wind, 4 miles S.; rain, .34; weather, rain.
New Westminster—Barometer, 29.82; temperature, 54; minimum, 54; wind, 4 miles E.; rain, .12; weather, rain.
Nanaimo—Wind, calm; weather, rain.

Kamloops—Barometer, 29.65; temperature, 66; minimum, 66; wind, 6 miles N. E.; rain, .01; weather, rain.
Barkerville—Barometer, 29.74; temperature, 47; minimum, 46; wind, 6 miles S. W.; weather, fair.

San Francisco—Barometer, 30.00; temperature, 54; minimum, 54; wind, 4 miles W.; weather, clear.

Edmonton—Barometer, 29.74; temperature, 64; minimum, 58; wind, 4 miles E.; weather, cloudy.

MYSTERY SURROUNDS

GRANT MADE BY CITY

Tuberculosis Society Said to Have Been Voted More Than it Got.

During the regime of A. J. Morley as mayor the association which is heading the fight against tuberculosis in this province made an application to the city council for a grant of \$2,500, other cities having made grants. That from Vancouver was \$5,000. The officers of the association appear to have been under the impression that their request was granted in full, and as they received only \$1,500 they wrote to the council recently for the balance. The finance committee, to which the matter was referred, reported that the only record to be found was one of a grant of \$1,500, which had been paid. Ald. Turner asked at last night's meeting what position this matter was in.

Ald. Henderson replied that the city had made a grant of \$1,500, and that this was paid over in 1906.

Mayor Hall remarked that he knew what had happened; that the other \$1,000 was voted but had been held back for a purpose.

"I do not like anything in the nature of repudiation," said Ald. Turner, "and if the promise was made to those people that they would get the full sum they asked for it is up to us to see that it is kept."

The mayor explained that he had been instrumental in getting the other thousand dollars voted by council, after it had first been cut off the original \$2,500, but he did not know till a year after that it had been held back.

Ald. Henderson said that there was not only no warrant for the additional sum, but no authority for the issue of a warrant.

BECHTEL IS WINNER IN THREE TROPHY SHOOT

The Dupont, Peden and Nobel Prizes Are Competed For.

At the shoot of the Victoria Gun Club held at Langford plains the first day of this week W. G. Bechtel was three times high score, and out of two hundred shots obtained 90 per cent.

For the Dupont trophy he secured 24 birds out of 25 shot, while Phillips, Wall and Weller were each 21.

In the Peden cup competition 30 birds, Bechtel scored 25, Weller 23 and Phillips 20.

In the Nobel trophy 50 birds, Bechtel scored 42 and Weller 40.

The next shoot of the club will not be for two weeks, and meantime a club meeting will be called.

Building permits were issued this morning to J. R. Green for a house on Superior street to cost \$1,300. To J. Burkholder for two rooms on Blanchard street to cost \$200. Yesterday afternoon L. S. V. York received a permit for a dwelling on Fisgard street to cost \$2,170, and J. H. Gray for bathing house and tea-rooms on Crescent street, Poul Bay, to cost \$1,100.

RESERVOIR LEAK WAS FORESEEN

IT IS NOTHING TO BE ALARMED AT, HOWEVER

Engineer Adams Explains to Council That Concrete Always Leaks.

Citizens must not be alarmed if the reservoir continues to show signs of leakage. That is the little way of concrete tanks and reservoirs. There is a popular belief that concrete in any form is water-tight. It is a small experiment that was described to the aldermen last night by Arthur L. Adams, the city's waterworks expert, is tried, this will be seen to be as baseless as a lot of other popular beliefs.

Mr. Adams was present at the council meeting and said he would be glad to give the aldermen any information they desired about the progress and present condition of the system. He had been around on a visit to the various parts of it, he said, and was perfectly satisfied with the way the work had been done.

Ald. Ross, having in mind some rumors of the reservoir leaking, asked if it was perfectly tight.

"There are about six feet of water in the reservoir and it is not perfectly tight," replied Mr. Adams. "I never expected it to be. I have never known a reservoir that was. I made provision for draining whatever leakage went through. Those who watched the progress of the work observed laid around the base of the walls a tile drain-pipe for the purpose of accumulating all the seepage which passes out through the concrete lining. That was arranged to discharge at the lower corner of the reservoir. There are two sources from which water is passing out, either through the walls or the drain-pipes. From the latter comes two-thirds of the total leakage. The total amount of leakage at present is fifty thousand gallons a day, equal to seven-tenths of an inch in depth over the whole reservoir in twenty-four hours."

Mr. Adams went on to say that a great many people thought concrete was entirely water-tight. There was not any sort of lining that could be put in that was absolutely water-tight. Except the walls of a reservoir or tank were of steel plates there was leakage to the amount of anywhere from half an inch to an inch in twenty-four hours, when they were new. There was one case where it was very desirable that the reservoir be made as nearly tight as possible, and every precaution was taken. The reservoir was built in clay ground, with a little sand in it, and was lined with concrete throughout. Over the concrete on the bottom and the lining of the slopes was a fine plaster finish, two coats of liquid asphalt on top of that, two courses of brick dipped in asphalt laid on that and more liquid asphalt to finish off with. Yet the leakage amounted to exactly half an inch when the reservoir was first put into use. Leakages always get less as the reservoir is used, however, as fine sand filters into the crevices and stops them up.

"I mention this to show that there is no structure of concrete which is really water-tight," said Mr. Adams. "Anyone can prove it by a simple experiment which I have used to demonstrate this fact. Take two bricks and dip one in asphalt till it is covered to a depth of an inch or so all over. Then place them both in a barrel of water. The unprotected one will very soon take up its full capacity of water. The other will take up just as much, but will take a little longer to do so; that is all."

Mr. Adams explained the engineering purpose of putting in a tile drain such as that in the Smith's Hill reservoir. Without a drain there would still be seepage into the walls and if at any time the reservoir should be suddenly emptied there would be a great amount of hydrostatic back pressure, which might force the lining of the walls in. With a drain to carry off this seepage steadily this danger is obviated.

Ald. Raymond asked if there was any way to have the water now leaking out.

Mr. Adams said it could be conducted into a small tank if desired or piped around and used to supply consumers when the slopes on this side are built upon.

In reply to further questions Mr. Adams said the leakage would be greater when the reservoir is full, but will gradually get less. There is always a waste in the supplying of water to consumers, running to as high as twenty-five per cent.

Mr. Adams will be present at the adjourned meeting of the council to-night and will give further information about the system.

MUSICAL COMEDY.

Splendid Chorus Company is Coming Here Next Week.

The Victoria theatre will open its doors Monday for a solid week of musical comedy at prices calculated to make the management very popular with local lovers of music and high-class comedy. The company is the Colonial Musical Comedy Company, which in its way is a decidedly unique organization. It includes among its principals the best of those who have appeared in the so-called Chicago musical plays, and who have been brought together for a summer tour in which business and pleasure are objects in equal measure. The company produces "The Isle of Spice" and "The Show Girl," both successes, and a complete equipment is carried for each.

Among the cast are Adele Oswald, formerly of the Pritts Schiefel, a donna of three important Chicago productions in as many seasons; Nellie V. Nichols, who as a soubrette and imitator ranks with Elsie Janis; Essie Barton, who has originated many of the leading character roles written in the last half dozen years; Harry Watson, the original

GOVERNMENT STREET, VICTORIA.

RICHARD DWYER AT THE BARRIER

SLOW STARTS MARKED HIS FIRST DAY OUT

Wamboro Was Pick Up for Stable and Some Friends.

Outside the running of the horses the principal item of discussion at the Willows yesterday was the comparison of the starting of Joe Weber as against that of Richard Dwyer, who made his appearance on the track yesterday for the first time. The comparison was all in favor of Weber, who has got his fields away in fine shape all through the twenty-five days of the meeting during which he officiated at the barrier. Dwyer may be unused to the half mile track, but even so his starts did not compare favorably with those of Weber the first day the latter took his stand. Dwyer held the horses at the post considerably longer yesterday than Weber has done formerly. The last race with a field of nine and the mischievous Traffic among them was all of twenty minutes getting away, and Metlakatla and Blue Heron were left at the post. The new starter may get his fields away better, but the public hates to stand from ten to twenty minutes while the starter is getting the horses away.

The principal win of the day was made by those who were on the inside and able to get the money on quickly with Wamboro, which opened 12 to 1, and inside a few minutes was backed down to 9 to 5, first by the owners and second by the paddock, and then by the public. The time made by the horse was slow over the five furlongs, but it took the inside running and led all the way. The field was either easy or no class. Zick Abrams beat Cliff Rogers for second money.

Archibald again rode his mounts to a majority of victories, getting in three firsts and a show money out of five mounts. Riding Ketchel in the first of 4 1/2 furlongs, he lay behind Eddie Graney, the favorite, till the last turn, and challenged the leader in the straight. The pair raced out the finish eight lengths ahead of the field, and Archibald pushed his horse a length to the front without using the whip on him. Ketchel coupled with Otranto was even money.

Archibald got two straights with Metchlin in the second race, running in to the lead at the start and staying there unchallenged to the finish, beating the favorite Ben Stone, while Incentive pushed a head in front of the favorite and got second money.

The big race went to the light weighted Fantastic, 101 pounds, and Edwin T. Fryer got in the money for the first time this meeting, taking second money. Barney Oldfield led the distance till the straight, where Fryer passed him, and Fantastic passed both a few yards from the post. The other three in the race ran in the following order: Johnstown, Ed. Ball and Footloose.

McBride had an easy win on Listowel in the fourth, and the horse was made favorite at 1-2. Salmesaw and Be Brief slipped into the places. Nellie Racine suffered from a weak ride. The boy Keogh made no effort to bring his mount into the money, but looked behind him and saw two horses coming hard without playing his whip. Nellie Racine could have been in the money with ease.

Thurbet was a repetition of Archibald's getting the position and holding it till he made his run. Sam McGibben and Traffic occupied the places. The winner was bid up to \$405 by C. C. Emmett, but was retained.

Dr. J. S. Gardner, of Santa Anita, was a visitor at the track yesterday.

The horses finished in the different races in the following order:

First race—Four and a half furlongs. Purse, Maiden two-year-olds, Value to first \$150.

Horse and Jockey. Op. Cl.

Ketchel, Archibald (110) 1 1

Eddie Graney, Keogh (113) 2 12-5

Swift MacNeil, J. King (108) 50 50

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section (160 acres, more or less) of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister.

DUTIES.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Prior to the expiration of his term, he may acquire an additional quarter section on either side of his homestead. The land must be cultivated fifty acres extra.

COAL.—Coal mining rights may be leased for twenty-one years at an annual rental of \$1.00 an acre. Not more than \$500 acres can be leased to one applicant. Royalty, five cents per ton.

QUARIES.—A person eighteen years of age and over having made a discovery may locate a claim 150 feet by 150 feet. Fee, \$5.00. At least \$100 must be expended on the claim each year, or paid to the Mining Recorder. When \$500 has been expended or paid, other requirements of the claim must be complied with.

PLACER MINING CLAIMS. generally, 100 feet square. Entry fee, \$5.00.

DREDGING.—Two leases of five miles each of a river may be issued to one applicant for a term of 20 years. Fee, \$10 a mile per annum. Royalty, 3 per cent, after the output exceeds \$10,000.

Deputy of the Minister of the Interior, N. B.—Unauthorized publication of this advertisement will not be paid for.

Trespass Notice.

On and after Monday next, July 5th, no trespassing will be allowed on the Esquimalt and Nanaimo Railway Company's Right-of-Way between Russell Station and Store Street.

H. E. BEASLEY, Superintendent.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Matter of the Estate of Nels Peter Nelson (otherwise Nelson), Deceased, and in the Matter of the Official Administrator of the said Estate.

Notice is hereby given that, under an order made by the Hon. Mr. Justice Irvine, dated 4th day of June 1909, I, the undersigned, was appointed administrator of the estate of the above deceased. All parties having claims against the said estate are required to send particulars of the claim to me on or before the 3rd day of August, 1909, and all parties indebted to the said estate are required to pay such indebtedness to me forthwith.

Dated at Victoria, B. C., this 2nd day of July, 1909.

W. MONTEITH, Official Administrator.

READ THE DAILY TIMES

FRUIT-THE GREAT PHYSICIAN

Wonderful Medicinal Value of Apples, Oranges, Figs and Prunes.

How many people realize what a remarkable curative principle are contained in fruit juices? There are two—the bitter and the sweet. There is about ten times as much of the sweet as of the bitter, though the bitter principle is the one which has the curative effect on disease. Apples, oranges, figs and prunes contain the highest percentage of bitter principle and thus are the most healthful.

It was a theory of a physician in Ottawa, that if the amount of bitter principle in fruit juice could be doubled, the curative property would be increased, not twice, but many times.

After many tests this physician succeeded in forcing into the combined fruit juices an additional atom of bitter principle, and in doing so formed an entirely new compound. To the combined juices were added valuable tonics and antiseptics and the whole made into tablets.

These are "Fruit-a-Lives"—the only remedy known to science that is made of fruit. The wonderful cures in cases of Stomach Trouble, Bilelessness, Constipation, Rheumatism, Chronic Headaches and Neuralgia, Kidney, Liver and Skin Diseases are due solely to the fact that "Fruit-a-Lives" contain the medicinal properties of fruit. 50c a box, 3 boxes for \$2.50, or trial box, 25c. At all dealers or from Fruit-a-Lives Limited, Ottawa.

SELLING STOCK IN

IRONDALE-STEEL WORKS

Representatives of Company Are in Victoria at Present Time.

R. S. King, who is associated with J. A. Moore, of Seattle, in the Irondale Steel Company's proposition, is in Victoria at present. With him is John D. Kearns, who is about to make his headquarters in Victoria, where he will place stock in the concern. The enterprise has created interest among Victorians, as the source of supply for the iron ore is in Vancouver Island.

The company is capitalized at \$2,000,000, although Mr. King says the assets which Mr. Moore puts in are worth many millions more than that.

Among the local investors are Percy D. Hillis, W. A. Hillis and H. W. Hillis, well-known lumbermen; Rev. Dr. Newell Dwight Hillis is also associated with the enterprise.

Mr. King says that Mr. Moore's plans for establishing considerable works at Quatino are to be carried out. This winter probably a large staff will be employed.

PRESIDENT LEISER CORDIALLY THANKED

Council of Board of Trade Acknowledges Value of His Services.

The annual meeting of the board of trade will be held on Friday at 3 o'clock. The nominations for office are unusually large and the meeting promises to be an important one. Hon. H. G. Tatlow has promised to attend and speak, and it is likely that Premier McBride will be there too.

President Simon Leiser, whose year of office has been markedly successful, was the recipient of a hearty vote of congratulation at the meeting of the council of the board this morning. The members of the council placed on record their high appreciation of his efficient administration of the board's affairs during the year, and of his unfailing courtesy to the members of the board personally.

The president, acknowledging the vote, expressed himself as more than repaid for any time he had spent by the thought that it was in the service of the community, and that the board's efforts had helped to advance the city materially.

A letter from Captain Troup was read and in reply the secretary was instructed to advise the C. P. R. that in the opinion of the board of trade the return fare to Seattle should be reduced to \$1.00 for regular traffic, and excursions, of course, lower.

PLEAD NOT GUILTY.

New York, July 6.—Officers of the American Sugar Refining Company, indicted by the federal grand jury on a charge of conspiracy in the restraint of trade, appeared in the United States court today and entered a formal plea of not guilty.

The defendants arraigned were the American Sugar Refining Company, President Thomas, Directors Donner, Senef, Mayer and Frazer, Chief Counsel Parsons, Thomas R. Parsons, attorney for Adolph Segal, Gustave Kissell, the reputed agent for the sugar trust who negotiated the loan to the Pennsylvania company, which the American company is accused of putting out of business to abolish competition.

The defendants were paroled in the custody of their counsel.

OFFICER SHOTS BANDIT.

Butte, Mont., July 6.—In a duel with Deputy Sheriff M. R. Tracy, an unknown bandit was shot and fatally wounded early today.

The bandit attempted to hold up a street car on which the officer was riding shortly after midnight. A number of shots were exchanged, Tracy wounding the outlaw. The bandit is not expected to survive his injuries.

What Other People Think

THE THIRSTY ONES.

To the Editor:—Very shortly the by-law making it illegal to sell all kinds of temperance drinks, fresh fruit, etc., on Sunday will come into force, and then what will all the unfortunate tourists and other homeless people do, who are wretched enough to thirstily await the Lord's Day? Are the city authorities taking any steps towards providing drinking fountains for the thirsty ones?

Very few people would care to go into a hotel or restaurant to ask for a glass of water when they are not spending anything at these places. What, then, are they to do?

5th July, 1909.

THE OAKLANDS UNPLEASANTNESS.

To the Editor:—Would you please to correct a few errors which appeared in your issue of the 31st re assault case in the police court. The reporter evidently did not care how he reported this case in the paper, or he would have given both sides of the story as told in the evidence.

The complainant stated I walked with my hands, which was contradicted by myself and two other witnesses. I used no language that I would not repeat before any lady in Victoria. I might say we have not only to put up with the nuisance of the cattle driving along the streets and sidewalks, but also are supposed to put up with the insults of the fellows who drive them, and if any city by-law is broken it is left to the residents to enforce the law, as we can get no police protection in this district.

JAMES MANTON.
1591 Lansdowne road, July 6th, 1909.

HOW TO LIMIT SPEED.

To the Editor:—So long as the automobiles are within the zone of a policeman's eye they do not exceed the legal limit of ten miles; but once they are beyond the range of his vision they fairly fly. How is the dangerous habit of racing machines through the streets to the peril of pedestrians or the drivers of horses to be put an end to? By the passage of an ordinance that will gear automobiles to ten miles an hour. It would then be impossible for the most reckless automobilist to break the law. Experience has shown that the drivers of death-dealing machines cannot be trusted. Therefore the power to run too fast should be taken from them. Until something of the kind is done, with the existing law police force, the most effectual steps can be taken to rid the community of the dangerous practice, an indulgence in which is bringing us every day nearer a catastrophe.

SAFETY.

A MODERN HORATIAN.

To the Editor:—I have been for many years in the habit of walking from Victoria West to the city by the river and railway bridge. To-day, to keep an appointment in town, I approached the bridge with a lady and was confronted by a barricade, a peremptory notice and an official who, fearing we would climb over the barricade, commenced an oral warning when we were within twenty yards of it.

If the C. P. R. had the gracefulness to also put a notice at the head of the road we would have been saved a hot and weary walk for nothing. But they didn't care. They are "the C. P. R." and happened to be angry about something, hitting all round, at friend and foe, cyclists and pedestrians, including many females who got that way to their daily employment in town. Now, in point of fact, there could be no "trespassing," properly speaking, by foot, foot passengers on the railway bridge, as there are sidewalks on both sides and well protected.

Let them knock down their churlish barricade and "let the pedestrians to confine themselves to the sidewalks on the bridge when approaching and leaving town, and they will confer a boon upon hundreds of persons who have gone that route for years.

Every railway bridge in London, England, makes special provisions for the convenience of foot passengers in cases like this, and the C. P. R. without loss of dignity, might follow their example.

A SUFFERER.

A SUGGESTION.

To the Editor: I have lately been impressed with the idea that this city has a site quite unique for a statue—either of our late Queen or His Majesty King Edward VII.

Would not such an addition be a splendid ornament, either between the fountain and principal entrance to the Parliament buildings, or underneath the dome, inside?

I have been thinking also that as certain countries are represented by floral emblems—England by the red rose, Scotland by the thistle, Wales by the leek, Ireland by the shamrock, how would a white rose, or spray of spruce do for British Columbia?

As I am not aware of how such things are carried out, this is the reason of my trouble, my query.

G. T. BURNETT.

Victoria, July 5th, 1909.

At Willenden, Eng., a young wife, married only a few weeks ago, was granted a summons for assault against her husband, aged seventy-five. She alleged that he had twice beaten her and was in receipt of an old age pension, which he spent in oysters.

Zam-Buk

When troubled with sunburn, blisters, insect stings, sore feet, or heat rashes, apply Zam-Buk!

Surprising how quickly it eases the smarting and stinging! Cures even on young babies due to chafing.

A Badge of Honesty

Is printed on the outer wrapper of every bottle of

Dr. Pierce's Favorite Prescription

and it is the only medicine for woman's peculiar ailments, sold by druggists, the makers of which feel fully warranted in thus taking the afflicted into their full confidence.

The more known about the composition of Dr. Pierce's Favorite Prescription the more confidently will invalid women rely upon it to cure their peculiar weaknesses and derangements. There's no secrecy about its make-up—no deceptive inducements held out to the afflicted. It's simply a good, honest, square-deal medicine with no alcohol, or injurious, habit-forming drugs in its composition. Made wholly from roots. It can do no harm in any condition of woman's organism.

Devised and put up by a physician of vast experience in the treatment of woman's maladies. Its ingredients have the indorsement of leading physicians in all schools of practice.

The "Favorite Prescription" is known everywhere as the standard remedy for diseases of women and has been so regarded for the past 40 years and more. Accept no secret nostrum in place of "Favorite Prescription"—a medicine OF KNOWN COMPOSITION, with a record of 40 years of cures behind it.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Favorite Prescription." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Favorite Prescription.

Send 50 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages cloth-bound.

World's Dispensary Medical Association, Proprietors, R. V. Pierce, M. D., President, Buffalo, N. Y.

UNIDENTIFIED WOMAN SLAIN IN NEW YORK

Body Found Lying in Doorway of a Tenement House.

(Times Licensed Wire.)
New York, July 6.—With the head beaten to a pulp and with the back and arms covered with bruises, the body of an unknown woman was found in the doorway of a tenement house in East Thirteenth street early today. Philip Calia, son of the proprietor of a nearby saloon, has been arrested on suspicion of implication in the crime. The woman's body was found by Morris Gross, a 12-year-old boy who was delivering milk. It was lying on a door step, which was covered with blood. Tracks from this pool of blood showed which way the assassin had walked, morning after he had opened the saloon, thence around a pool table in one of the inner rooms.

Physicians say the woman's body had been dead two hours when the boy discovered it.

Young Calia, who is full grown, denied any knowledge of the crime. He said he heard some scuffling early this morning after he had opened the saloon, but he paid no attention to it, and finally went to sleep on the pool table. He declared that while he was asleep the assassin must have walked into the saloon and across to the pool table to throw suspicion upon him.

COMPLETE CREWS FOR N. P. A. A. O. REGATTA

J. B. A. A. Enter in All Four of Championship Events.

Following is a complete list of entries for the N. P. A. A. O. regatta to be held at Seattle on July 9th and 10th: Junior Singles.

James Bay Athletic Association, Victoria—W. W. Kennedy.
Vancouver Rowing Club—T. H. Godfrey.
Portland Rowing Club, Portland, Ore.—Arthur Allen.

Junior Fours.
James Bay Athletic Association, Victoria—J. Lawson, stroke; B. Strachan, J. W. Funnell, J. R. Donaldson, bow. J. Y. McCarter, stroke; H. C. Hopkins, 3; R. G. Monteith, 2; T. Monk, bow.

Nelson Boat Club, Nelson—F. Nott, stroke; J. Miller, 3; R. Bell, 2; A. Pool, bow.
Vancouver Rowing Club, Vancouver—H. Sinclair, stroke; J. H. Wiley, 3; J. T. Lee, 2; J. K. Simpson, bow.
Portland Rowing Club, Portland, Ore.—J. W. Funnell, stroke; E. S. Tuck, 3; A. Pfander, 2; H. G. Chickering, bow.

Junior Doubles.
James Bay Athletic Association, Victoria—J. C. Newmarch, W. Lawson.
Portland Rowing Club, Portland, Ore.—Arthur Allen, R. A. Moore.
Nelson Boat Club, Nelson, B. C.—George Gore, R. Ball.
Vancouver Rowing Club, Vancouver—G. N. Chaffey, G. J. Simpson.

Senior Singles.
Vancouver Rowing Club, Vancouver—C. Laine.
Nelson Boat Club, Nelson, B. C.—T. D. Desbrisay.
Portland Rowing Club, Portland, Ore.—E. O. Gloss.

Senior Fours.
James Bay Athletic Association, Victoria—J. Y. McCarter, stroke; H. C. Hopgood, 3; R. G. Monteith, 2; T. Monk, bow.
Portland Rowing Club, Portland, Ore.—B. E. Loomis, stroke; J. Fitting, 3; J. Huston, 2; A. C. McKicken, bow.
Vancouver Rowing Club, Vancouver—S. C. Sweeney, stroke; B. R. Gale, 3; G. N. Stacey, 2; E. C. Sawers, bow.

LOCAL MARKETS

Algonquin Club, Seattle, Wash.—L. Williams, A. Lind, H. Goddard, H. F. Wyckoff.
Senior Doubles.
Vancouver Rowing Club, Vancouver—C. Laine, H. Sinclair.
Portland Rowing Club, Portland, Ore.—E. O. Gloss, R. A. Moore.

The J. B. A. A. crews leave to-night for Seattle, the races taking place Friday and Saturday, and the crews will have a couple of days on the water prior to the big regatta.

THE WINNERS FOR JUNE

Have you drawn one of these numbers from a sack of Royal Standard Flour?

40613 47260 42072
41763 70363 49379
48276 61404 51347
45138

If you have, you are entitled to a 109-piece china dinner set. Each month from the duplicates of coupons placed in the sacks of Royal Standard Flour leaving our mills we draw ten numbers. If you are fortunate enough to secure one of these you are entitled to a dinner set. There have been many successful ones—you may be next.

Royal Standard Flour is the best and purest household flour in the West—made from the finest selected wheat by special machinery—watched through every process—guarded until it reaches your table. It is perfection itself in a flour.

Ask your dealer for it.

JAMES L. RAYMUR,
Water Commissioner.

SALATIS BRINGS

CARGO OF NITRE

Tribute to Port of Salina Cruz and Tehantepec Route.

The German steamer *Salatis*, of the Kosmos line, Captain Reckman, arrived this morning with a consignment of 500 tons of nitre for this port. She is now discharging and will leave tomorrow for the Tehantepec route.

The *Salatis* is one of the round-the-world liners which sail periodically from Hamburg, calling at over thirty ports on the American continent. She collected a large cargo of nitre at Chilian and Peruvian ports, all of which was lightered to the ship. A consignment of 200 tons was left at Manzanillo and 300 tons at San Francisco, as well as a good deal of general cargo for Mazatlan.

The *Salatis* also brought 700 tons of European cargo from Salina Cruz, leaving it at San Francisco. The officers of the ship reported that the Tehantepec railway was very busy. At Salina Cruz six big liners were lying either discharging or loading. Three of these were Kosmos liners and the other three were American-Hawaiian steamers. One of the liners took nearly ten thousand tons of European freight and then there was some left.

Speaking of the port of Salina Cruz, one of the officers said that it had been made a splendid port. It was practically the only port south of San Francisco where there were any facilities for handling cargo, and on that account they did a great deal of business. The cargo coming over the Tehantepec was handled without damage, something which could not be said of the Panama route.

The *Salatis* carried one passenger, Max Hach, the agent for the Kosmos line at Mazatlan. He was ill with malarial fever and is making the voyage for his health. The fever has already left him and by the time he reaches Mazatlan again he hopes to be fully recovered. Speaking of the conditions in Mexico, Mr. Hach says that the coming elections are having a unsettling effect on the country. The mining industry is flourishing, but outside of that there is not much business being done.

When the *Salatis* has discharged her cargo she will load lumber and flour and other merchandise for Panama, and then continue her voyage to Hamburg, taking about nine or ten months making the round trip from that port and back.

PROGRESSING FAVORABLY.

Gordon Halkett is expected May Recover His Sight.

Favorable reports are still received from Prince Rupert as to the condition of Gordon Halkett,ighthouse inspector, who was injured at Skidegate through carbide igniting when a buoy was being cleaned. The latest dispatch says that his progress is marvellous and that great hope is entertained for the complete recovery of his sight. He may be removed at any time now and will probably return on the next steamer from Prince Rupert. His parents are anxiously awaiting his arrival here.

Ship *Clastic* has completed her work of loading and is getting a crew in Vancouver preparatory to being towed to sea.

REVIVAL SHOWN IN GRAIN CHARTERING

Lumber Carrying Trade Dull During Past Week.

Chartering of grain ships has been revived and several fixtures were made this week, all being at the union rates, says the San Francisco Commercial News. There are now, all told, 35 vessels under engagement to load grain at northern ports and 16 to load at San Francisco. The available supply of tonnage is increasing steadily through the chartering of foreign tramp steamers to bring coal to this coast from the Atlantic. Probably the lowest rate on record for the voyage from Europe to this coast was made recently, when a French vessel accepted 3s. She gets 28s for a return voyage with wheat, however, making 33s for the round. Rather than wait for new crop charters three French vessels have been ordered away in ballast, leaving 21 coast foreign vessels at the various coast ports.

Lumber chartering has been very dull. Puget Sound to Callao has been done at 27s 6d, Guaymas at 25s, Mazatlan at 26s, Honolulu at 25s. Coastwise business is quiet with 23 still the going rate from the Sound to this port.

Offshore rates are quoted approximately as follows: Puget Sound to Puget Sound or British Columbia to Sydney, 20s 6d; to Melbourne or Adelaide, 22s; Port Prie, 35s; to Fremantle, 37s 6d; to Japan ports (steamers), 30s; Callao, 37s 6d; 38s 6d; direct nitrates ports, 37s 6d; Valparaiso for orders, 38s 6d; 41s 6d; 2s 6d less to a direct port; to South African ports, 38s 6d; to U. S. West Coast, 38s 6d; 42s 6d; Guaymas, 25s; Santa Rosalia, 25s; Honolulu, 25s.

Weddel, Turner & Co.'s Australasian freight report, dated London, June 15th, says:

South Australia—July steamer fixed for one to Antwerp or Dunkirk at 23s 3d.

Queensland—There is nothing doing at present.

Newcastle—The following coal fixtures are reported: (Steam) Honolulu, 12s; (sail) West Coast, 15s 6d; direct nitrates ports, 14s 6d; 14s 9d.

New Zealand—Small prompt ship fixed to East London at 17s 6d, wheat, Victoria—Market quiet.

PRINCESS ROYAL IN FROM SKAGWAY

Many Passengers Travelling Each Way—Prince Rupert Busy.

Steamer *Princess Royal* has arrived from her regular fortnightly run to Skagway and Prince Rupert. She carried a full list of passengers each way and the took north a large consignment of Hudson's Bay freight, which was left at Wrangell. This was for transfer to the sternwheeler Port Simpson going up the Stikine as far as Teluk Creek.

The *Royal* reported that things are getting very busy at Prince Rupert. New buildings are starting, and there is every indication that the place will build up rapidly.

The *Princess Royal* will relieve the ferry *Princesses* one trip each before leaving again for Skagway on Friday night.

BRITISH SHIPPING DOUBLE ALL OTHERS

Returns From Suez Canal Show British Tonnage Far in Lead.

The annual meeting of the Suez Canal Company was held at Paris a short time ago. The report states that, in spite of the appreciable decrease in revenue during 1908, it is proposed to maintain the dividend at last year's figure of 15 1/2 sh. The falling off in the revenue last year as compared with 1907 amounted to 134,102. The expenditure last year amounted to 50,815 more than in the previous year. This was largely due to the cost of upkeep of the canal, such as dredging at the station of Lake Timah and the restoration of the eastern jetty.

Prince Auguste D'Arenberg, president of the company, in the course of his comments on the year's working stated:

In 1908, 3,750 ships, showing a net tonnage of 13,623,200 tons, passed through the canal. Consequently, compared with 1907 there is a diminution of 472 ships and 1,055,151 tons. The average volume of the ships has been 3,452 tons in 1907, and 2,592 tons in 1908. The increasing of the average tonnage seen in succeeding years has been remarkably manifested. The average time of journey of the ships has been 12 hours 24 minutes, the most favorable average in the year realized since the opening of the canal. A branch society of the Standard Oil Company is negotiating with us just now in order to rent a piece of ground at Port Said. They want to build a big warehouse for petroleum essence, and a reservoir, and for the manufacture of barrels for the works. We think it would be very advantageous for us to accept their offer.

The following table shows the number of ships and the tonnage of various nations using the canal in 1908.

Nations	No. of Vessels	Net Tonnage
English	2,233	5,398,393
German	584	2,310,597
French	242	815,120
Dutch	246	743,380
Japanese	59	286,456
Russian	84	351,820
Italian	83	189,543
Danish	34	39,768
Spanish	27	77,774
Norwegian	22	61,907
Swedish	16	49,628
Austro-Hungarian	107	38,546
Turkish	30	34,601
American	8	17,500
Greek	8	10,408
Portuguese	3	1,689
Brazilian	1	1,484
Siamese	1

Troquois leaves here for Seattle at 9 a. m., arriving at Seattle at 2 p. m.; returning, leaves Seattle at midnight, arriving here at 6 a. m.

NEW SUBDIVISION

AT OAK BAY

Plan of Oakleas Adopted by the Oak Bay Council.

At a meeting of the Oak Bay council last night Councillor McGregor secured the adoption of the plans for the new Linkleas subdivision. This property, consisting of 53 acres, adjoins the golf links on the west side and extends from McNeil avenue to Island road. It is divided into 50-foot lots, half-acre and larger lots. The surveys were made by Gore & McGregor.

On the fact that Councillor Oliver was interested in the subdivision that gentleman announced that he would take no part in the discussion or voting.

The plan showed that the road running along the whole length of the subdivision nearest to the golf links and several turns in it and exception was taken to this by Councillors Colbert and Noble. On the motion for acceptance of the plans being moved by Councillor McGregor, Councillor Noble moved an amendment that the plans should be referred to the roads committee. This was seconded by Councillor Colbert, who pointed out that there was a probability of the street cars using the road and for that reason it should not have the short turns in it.

Councillor McGregor promised to have the corners rounded off, but this did not satisfy the objectors. Finally the motion was put, Councillors McGregor, Newton and Pemberton voting for the adoption of the plan and Councillors Colbert and Newton against it.

THE MARINER'S COMPASS.

"Much interest must forever attach to the discovery of this instrument, and yet there are few subjects concerning which less is known," says the Electrical Engineer.

"For a period the honor of the invention was ascribed to Girolamo, a pilot born at Pasitano, a small village situated near Amalfi, about the end of the thirteenth century. His claims, however, have been disputed. Much learning and labor have been bestowed upon the subject of the discovery. It has been maintained by one class that even the Phenicians were the inventors; by another that the Greeks and Romans had a knowledge of it. Such notions, however, have been completely refuted. One passage, nevertheless, of a remarkable character occurs in the work of Cardinal de Villy, bishop of Ptolemais, in Syria. He went to Palestine during the fourth crusade, about the year 1244, he returned afterward to Europe, and subsequently went back to the Holy Land, where he wrote his work entitled 'Historia Orientalis,' as nearly as can be determined, between the years 1215 and 1220. In chapter 91 of that work he has this singular passage: 'The iron needle, after contact with the lodestone, constantly turns to the north star, which, as the axis of the firmament, remains immovable while the others revolve, and hence it is essentially necessary to those navigating on the ocean.'

"These words are as explicit as they are extraordinary; they state a fact and announce its use. The thing, therefore, which essentially constitutes the compass must have been known long before the birth of Girolamo. In addition to this fact, there is another equally fatal to his claim as the original discoverer. It is now settled beyond a doubt that the Chinese were acquainted with the compass long before the Europeans. It is certain that there are allusions to the magnetic needle in the traditional period of Chinese history, about 2,500 years before Christ; and a still more credible account of it is found in the reign of Chingwang, of the Chow dynasty, before Christ 1114. All this, however, may be granted without in the least impairing the claims of Girolamo to the gratitude of mankind. The truth appears to be that the position of Girolamo in relation to the compass was precisely that of Watt in relation to the steam engine—the element existed; he augmented its utility. The compass used by the mariners in the Mediterranean during the twelfth and thirteenth centuries was a very uncertain and unsatisfactory apparatus. It consisted only of a magnetic needle floating in a vase or basin by means of two straws on a bit of cork supporting it on the surface of the water. The compass used by the Arabians in the thirteenth century was an instrument of exactly the same description. Now the inconvenience and inefficiency of such an apparatus are obvious; the agitation of the ocean and the tossing of the vessel might render it useless in a moment. But Girolamo placed the magnetized needle in a pivot, which permits it to turn to all sides with facility. Afterward it was attached to a card, divided into thirty-two points, called Rose de Vents, and then the box containing it was suspended in such a manner that, however the vessel might be tossed, it would always remain horizontal."

Navigation is now open on the Yukon River and Lakes. Connections are made with the Company's steamers, carrying both freight and passengers.

At Caribou for Atlin; at White Horse for Dawson and intermediate points; and at Dawson for Fairbanks and points on Lower River.

Commander Crutchley Tells of Campaign—A Million Members Wanted.

The Navy League campaign in the country has been the means of bringing home to hundreds of thousands of people the need for an efficient navy, and the necessity for the laying down of eight Dreadnoughts this year, says the Pall Mall Gazette.

Big demonstrations at Leicester, Grantham and Lowestoft have concluded the first portion of the series. Commander Crutchley informed a representative that several open-air gatherings are to be held, and the demand that the government shall do something definite and at once will be steadily maintained.

Speaking of the league's work, he thought that the committee appointed to consider the reorganization of the society would report in about a month. The special subject left to their investigation was the popular

Fit-Reform Cravenettes

Fair weather and foul weather are all alike to Fit-Reform Rain Coats. On bright days—they make elegant top coats—stylish and dressy enough for all occasions.

When it blows up chilly and rains—a Fit-Reform Rain Coat will keep you warm and dry from head to foot.

Fit-Reform Rain Coats are absolutely rainproof and dampproof. They come in OLIVES, TANS AND GRAYS, \$18, \$20, \$25.

ADVERTISE IN THE TIMES

SOCIAL AND PERSONAL

Mrs. R. S. Dalby will not receive tomorrow.

Mr. and Mrs. S. MacLure are holidaying in Los Angeles.

Mrs. Pownall will not receive again on Wednesdays until the autumn.

Hon. Dr. Young was a passenger by the Charnier last night for Vancouver.

Mrs. A. H. Bostock, 529 Springfield avenue, will not receive during July and August.

R. F. Middleton, from Hamiota, Man., is among the latest arrivals from the prairies.

Mrs. Phil Austin will not receive again until the second Wednesday in September.

Mrs. Munsie and daughter were passengers last night by the Charnier for Vancouver.

Mrs. Bailey, 1142 Caledonia avenue, is entertaining Mrs. J. Fingal Smith, of Cranbrook.

Mr. and Mrs. H. D. Hamilton have returned from the A.-Y.-P. exposition, and report a delightful outing.

The many friends of Mrs. Gus Porter will be glad to learn that she is recovering from her recent illness.

Mrs. Wm. MacLaren, Niagara street, will not receive tomorrow, nor again until the first Wednesday in October.

Among the latest arrivals from London, England, is Mrs. D. Lange, who will make an extended stay in town.

Among our California visitors are Mrs. E. W. Lockwood, of San Diego, who will make an extended stay in town.

Mrs. Wm. Bulman and her two sons, of Mount Toimle, have returned to town after an extended stay in the old country.

Mrs. H. Wheeler and Miss Daisy Collier, of Toronto, who were the guests of Mrs. T. F. Johnston, have started on their homeward journey.

Mr. and Mrs. W. S. Jones of Winnipeg, arrived in town yesterday afternoon and will remain here for some time before going to Seattle.

A party from Milwaukee, who will make an extended stay in town consists of Mrs. C. Chase, Miss Chase, Miss Aufstun and Miss Ruth Chase.

Mr. and Mrs. Samuel Murray, of San Francisco, and Mr. and Mrs. R. H. Abbott, of Capilata, are among the latest arrivals from California.

Mr. and Mrs. William Hunt and Miss Hazel Hunt arrived in town yesterday from Winnipeg. They will remain here some time before leaving for Seattle.

A party from Brandon, Man., who will spend some time sightseeing in and around Victoria, consists of Mr. and Mrs. J. H. Ball, Miss Florence Ball, and Melville Ball.

Mrs. T. P. Robinson (nee Jones), will hold her next nuptial reception at her home, Rocklin Cottage, 2515 Douglas street, tomorrow afternoon from 3 to 6 and from 8 to 10 in the evening. Mrs. Robinson will not receive after that date until September.

Rey. Dr. Campbell last evening celebrated at Bredabane, the manse of the First Presbyterian church, the marriage of Edward Frederick Kiso, of Vancouver, and Miss Gertrude S. Ross, of Seattle. Mr. and Mrs. Kiso will make their home in Vancouver.

Invitations have been issued by Mr. Charles W. Watson, of Cleveland, Ohio, for the marriage of his daughter, Miss Velda Merrill to Mr. John A. Rithet, of this city. The wedding will take place on July 26th in Unity church, Cleveland. Mr. and Mrs. Rithet will take up their residence in Victoria, and will be "at home" on the 15th of October, at 1138 MacLure street.

Mrs. Williams and Miss Williams, of Couer d'Alene, Idaho, who have been for several days the guests of Mr. Wm. MacLaren, Niagara street, left yesterday afternoon for Seattle on route for home. They were accompanied by the Misses Eva and Lottie MacLaren, and the party will spend a week or more at Seattle before continuing their journey to Idaho. Mrs. Williams is Mrs. MacLaren's sister.

Miss Fugate, of Menzies street, was the hostess of a charming tea yesterday afternoon. Miss Fugate received her guests in a very pretty gown of cream silk voile with lace yoke. Assisting her was Mrs. Percy Brown, looking very pretty in her wedding gown. In the tea room where dainty refreshments were served a most artistic decorative scheme was carried out with sweet peas in the delicate pink shades. White garden pink and ferns were used in the reception hall and drawing rooms.

NEW GRAND THEATRE.

A Mining Playlet is Presented This Week That Takes Well.

Owing to having contracted a cold on the way over to Victoria Matt Keefe, the singer, was unable to appear at the New Grand theatre. He attempted to sing at the matinee but was compelled to desist and resign his contract. He left for Seattle last night. Despite this misfortune the bill at the Grand is a good all round one all in variety and is head lined by Manion and Glendower in the pretty and stirring tabloid farce, "A Christmas on Comstock," wherein the days of the old mining camps are lived as naturally as can be. The work of the girl in the playlet is refreshing and natural and the applause given her is well merited.

Miss Lilian Fisher, accompanied by her own accompanist and piano singer, "I Dreamt That I Dwelt in Marble Halls," and "If I were on the Stage,"

HALL MARKED Sterling Silver

During the last few days we have unpacked a magnificent line of

English Sterling Silver

Including Tea Sets, Fruit and Cake Baskets, Cigar Boxes, Toilet Sets, Salt and Pepper Sets, Vases, etc., etc.

Many of the individual pieces are exceptionally beautiful in design and execution.

You will certainly be pleased when you see this line.

The prices marked cannot be criticized.

CHALLONER AND MITCHELL

1017-19-21 GOVT. STREET

from Fritz Scheff's opera, "Mile. Modiste."

Her voice is clear and her stage manner pleasing. Her gown last night was quite an unusual feature for the Grand. McDevitt and Kelly, a pair of expert hard shoe dancers, received a big welcome, and their work showed long practice. They were expert and clever and bring with it a little good original comedy. The Patterson sisters, five in number, open the show in a musical turn semi-comic opera semi-chorus. They present an automobile song and two others. Thomas J. Price has a song this week that suits him admirably, and in singing "Perhaps" last night won long and loud applause. The motion pictures this week are good also.

ANOTHER LADIES' DAY AT RACE TRACK

Thursday of Next Week Will Be Made Tributary to Hospitals.

The Victoria Country Club has decided to make Thursday another ladies' day at the Willows, when every lady attending the track will be passed through the gates without paying admission.

The following Thursday, July 15th, has been set aside as Hospital day, when the club has decided everyone shall pay for admission and half the proceeds will be set aside for equal division between the Royal Jubilee and St. Joseph's hospitals.

MRS. FISKE.

"Salvation Nell" Will Be Produced Here on Friday Next.

As a triumphant close of the local season Mrs. Fiske will bring her wonderful play of New York life, "Salvation Nell" to the Victoria theatre on Friday. This is the play which aroused that city by the unusual realism with which the life of the lower East Side was portrayed. In it Mrs. Fiske and her manager, Harrison Grey Fiske, seem to have outdone themselves as stage producers.

The old and unvarying melodramatic version of the life in this quarter of New York was discarded by the Fiskes and out of all the seeming lowliness of Cherry Hill they have brought "Salvation Nell."

The staunchest admirers of Mrs. Fiske and her wonderful record of character creations admit that this is the most vivid of her studies and that in this story of a humble, sorrow-stricken woman, who loves as a woman only can love, she has developed a type which will live forever alongside of Tess and Becky Sharp.

She had a remarkable run at the Hackett theatre, New York and has been brought into the western territory at a great expense. With his usual lavishness Mr. Fiske has not attempted to cut the massive production in a single part.

The regular meeting of the W. C. T. U. has been changed from Thursday to Friday afternoon of this week. The meeting will be held in the Y. M. C. A. auditorium. It is expected that Rev. Dr. Spencer will be present and will give an address upon his trip through B. C. in the interests of the local option campaign. All members are requested to bear in mind the change of day for meeting, and all interested, whether members or not, are asked to attend the meeting.

Strawberry Syrup.—Crush some ripe berries and strain till you have a pint. Boil a pound of sugar with a cup of water till it will thread, but do not stir it. Add the strawberry juice and simmer very slowly for fifteen minutes; put in bottles, cork and seal while hot.

Cherry Syrup.—Stone some very ripe, sweet cherries, and take half the stones out and pound them in a big bag till they are crushed; mix with the cherries and squeeze all until all the fruit juice is extracted. To every quart add two cups of sugar; boil ten minutes, skimming well, bottle and seal.

Raspberry Syrup.—Boil two cups of sugar and two of water for fifteen minutes; add to these two cups of clear raspberry juice squeezed from ripe berries and simmer twenty-five minutes in a covered kettle. Bottle and seal while very hot.

—Sir! Remember the cook. Her work is in the hot kitchen. Fit the kitchen with screen doors and windows and make the place comfortable. Windows, 25c to 40c; doors, \$1.40, \$1.50, \$1.75, \$2.10, \$2.25 and \$2.50.—A. Brown & Co., 1302 Douglas street.

German Strawberry Preserves.—Take large, firm berries and stem but do not wash them. Weigh three-quarters of a pound of sugar to each pound of fruit, and arrange the two in layers in a clean preserving kettle. Cover and let stand all night; or, if it is hot, damp weather, prepare it all early in the morning, and let it stand only six hours. Put the kettle on the fire, heat very slowly, and let them just simmer ten minutes, skimming well. Cover quickly with a thin cloth, and take from the fire and let the fruit stand all night as it is. In the morning put the kettle on again and simmer ten minutes more, and take at once from the fire; skim out the berries carefully and put them in glass cases and boil down the syrup till it is as thick as you prefer it; pour over the berries and seal at once.

Current Conserves.—Take five pounds of stemmed currants, two pounds of raisins and the pulp of six oranges. Add three and a half pounds of sugar and simmer till thick. To this add if you choose, a pound of stoned cherries and a pound more of sugar.

Strawberry Conserves.—Pick up three or more pineapples, and add to them an equal amount of stemmed berries, half crushed; weigh, measure and equal amount of sugar and cook till thick.

Strawberry Syrup.—Crush some ripe berries and strain till you have a pint. Boil a pound of sugar with a cup of water till it will thread, but do not stir it. Add the strawberry juice and simmer very slowly for fifteen minutes; put in bottles, cork and seal while hot.

Cherry Syrup.—Stone some very ripe, sweet cherries, and take half the stones out and pound them in a big bag till they are crushed; mix with the cherries and squeeze all until all the fruit juice is extracted. To every quart add two cups of sugar; boil ten minutes, skimming well, bottle and seal.

Raspberry Syrup.—Boil two cups of sugar and two of water for fifteen minutes; add to these two cups of clear raspberry juice squeezed from ripe berries and simmer twenty-five minutes in a covered kettle. Bottle and seal while very hot.

ORPHANS HAVE HAD ENJOYABLE TIME

Kind Friends Have Contributed to Comfort of Home.

The ladies' committee of the Protestant Orphanage met in regular monthly session on Monday, July 4th, at 2:30 p. m. There were present Mesdames McTavish, McCullough, Higgins, J. Dickson, C. J. Todd, J. Shandley, E. Andrews, Few, Sherwood, Picard, Vigilius, Toller and the Misses Brall and J. Toimle.

Several applications were received for children for adoption, none however being available. Unanimous votes of thanks were passed to Messrs. A. and J. Longfield and their excellent orchestra for the delightful programme of music rendered by them at the recent pound party; to Mr. and Mrs. S. R. Newton for the enjoyable and ever-memorable day spent by the children at Oak Bay as their guests, and to the generous list of donors at the pound party.

The matron has been granted leave of absence for a well-earned rest. Mrs. E. E. Few and Mrs. Sherwood were welcomed as new members of the committee. Very interesting letters were read from boys who had been former inmates of the orphanage, speaking in high terms of their new homes and surroundings.

Bills were paid amounting to \$222.55. In addition to the list of groceries received at the recent pound party \$76.75 was received in cash. Mrs. Sprague and Miss Brall were appointed visiting ladies for July.

The report of the visiting committee told of the well-filled pantry after the pound party and the delightful time spent on July 1st at the guests of Mr. and Mrs. S. R. Newton at Oak Bay. A trip up the Gorge on the White Swan Flyer it was announced was also promised. A feed of strawberries had been enjoyed by the children owing to two crates being received with instructions that they be eaten by the children and not made into jam. A friend sent a box of picture papers, which were enjoyed, as they can be cut out and pasted in books.

Six quilts had been purchased at a dollar each and a lounge for the dining room at \$5.

The donation list for June was as follows: Tony Silvene, 4 hams, 15 lbs. butter, 2 cases of strawberries; Mrs. Harris, Clarence hotel, clothing; Mrs. Goodacre, Map of the world; St. Saviour's church, per Rev. C. E. Cooper, cake, buns and butter; Mrs. Leigh, clothing; Mrs. Adams, clothing; Mr. Lane, lettuce; Mrs. Ney, clothing; Bishop Petric, cake and oranges; the Welsh picnic committee, per A. Patch, 30 lbs. sugar, 4 doz. oranges, bananas, berries; Mr. and Mrs. S. R. Newton, Oak Bay, picnic for all of the children. Omitted from pound party list: Mrs. Thornton, Fell set of flatirons; Mrs. Lee, sack of flour; Capt. Newbury, sack flour; Mr. York, sack flour; Mrs. E. B. Marvin, sack flour; D. R. Ker, 90 lbs. wheat flakes; Mrs. W. B. Hall, tin maple syrup; Mr. Dickinson, Moose street, 20 lbs. sugar; Mrs. Gould, Simcoe street, 20 lbs. sugar; Mrs. B. Gonnason, sack flour; Mrs. N. Hibben, 2 sacks oat meal; Times and Colonist, daily papers; Mrs. Shotholt, potatoes, carrots and gooseberries; Reformed Episcopal church Sunday school, cake and buns; Mrs. Erskine, King's road, 2 quarts strawberry jam; Mrs. F. S. Barnard, \$5; Mrs. M. W. Waitt, \$2; a friend, \$5; Mrs. E. E. Few, \$2.

The president, Mrs. McTavish, closed the meeting with prayer.

TIMELY RECIPES.

German Strawberry Preserves.—Take large, firm berries and stem but do not wash them. Weigh three-quarters of a pound of sugar to each pound of fruit, and arrange the two in layers in a clean preserving kettle. Cover and let stand all night; or, if it is hot, damp weather, prepare it all early in the morning, and let it stand only six hours. Put the kettle on the fire, heat very slowly, and let them just simmer ten minutes, skimming well. Cover quickly with a thin cloth, and take from the fire and let the fruit stand all night as it is. In the morning put the kettle on again and simmer ten minutes more, and take at once from the fire; skim out the berries carefully and put them in glass cases and boil down the syrup till it is as thick as you prefer it; pour over the berries and seal at once.

Current Conserves.—Take five pounds of stemmed currants, two pounds of raisins and the pulp of six oranges. Add three and a half pounds of sugar and simmer till thick. To this add if you choose, a pound of stoned cherries and a pound more of sugar.

Strawberry Conserves.—Pick up three or more pineapples, and add to them an equal amount of stemmed berries, half crushed; weigh, measure and equal amount of sugar and cook till thick.

Strawberry Syrup.—Crush some ripe

ST. JAMES STABLE

STILL HEAVY WINNER

Day Star's Win Brings E. C.
Blum Towards
Top.

For the first twenty-five days of the
meeting given in this city under the aus-
pices of the Victoria Country Club there
has been a distribution among horsemen
of a total of \$3,000. This sum has been
distributed among exactly ninety-seven
owners, which represents the number of
owners now racing their strings here.
The St. James stable is still at the head
of the list of winning owners, with W.
Fitzgerald & Co. are a close second. The
biggest gain of the week was that of E.
C. Blum, whose Day Star won the "Dom-
inion Day" handicap, thereby adding \$700
to his owner's credit, and putting him
fifth on the list. W. M. Cain took down
four purses during the week, and also
took second money three times. These
amounts take him from an obscure posi-
tion and place him third on the list of
winners.

Twenty-five owners have won \$500 or
over during the first twenty-five days of
the meeting. Following is the list:

St. James Stable\$1,350

GEORGE ARCHIBALD HAS

THE BEST PERCENTAGE

Brooks Still Leads Winning
Jockeys—Lycurgus—
Second.

The sensation of the past week at the
Oak Bay track was the remarkably clever
riding of Jockey George Archibald, who
had the distinction of riding nine winners
in five days. Archibald only began rid-
ing last Tuesday, and he soon demon-
strated that he is the peer of the local riding
colony. On Thursday he piloted four
winners, and on Saturday he almost
duplicated this performance when he had
three winning mounts. This boy is popu-
lar with local racegoers, and it is be-
coming the fashion to play his mounts, ir-
respective of the merits of the horses.
Archibald is now in fifth position in the
list of winning riders. Reed Brooks rode
five winners during the week, and is still
at the top with a total of 22 win-
ning mounts. Lycurgus rode six winners
during the week and is second on the list.
Vesper continues to ride in good form,
having ridden three winners during the
week. He is sixth on the list with nine
winning mounts.

Following is a list of riders who have
won two or more races at the meeting:

Jockey 1st 2nd 3rd
Brooks 22 15 10
Lycurgus 17 8 5
W. Kelly 14 17 20
J. King 11 9 8
Archibald 9 6 4
Vesper 9 11 12
W. McIntyre 8 2 1
Anderson 6 4 9

McLaughlin 2 7 4
Leeds 2 3 2
Shale 2 3 4
F. Kelly 2 2 1
Callahan 2 0 0

WRESTLING.

ROLLER DEFEATS BERG.
(Times Leased Wire.)

Seattle, Wash., July 6.—Charles Ol-
son, the Indianapolis man who has been
shouting for over a year that if he ever
got a chance at Dr. Roller, he would
tear the medical man's head off, failed
to appear last night for their sched-
uled match at Cort's arena. The main
event of the evening was held for half
an hour in order to give Olson every
chance to get there, but when it be-
came apparent that he had fallen by
the wayside, John Berg, of Bellingham,
was substituted. Roller pinned the
Bellingham lad's shoulders to the mat
in straight falls, 21 minutes. Part of
the big crowd present yelled like wild
men when Olson's defection became ap-
parent, and the rest took it as a good
and that in this country the feeling o-

CELEBRATION OF

DOMINION DAY

Residents of Clayquot Hold
Enjoyable Picnic at Long
Beach.

(Special Correspondence.)
Clayquot, July 2.—The residents of
this district celebrated Dominion Day
by having a picnic at Long Beach.
Father Maurus, the Sisters and all the
children of the Christie Indian Indus-
trial school joined the crowd. Races
were held for both the white and In-
dian children.

Mr Harvey has a fine new house on
his place at Long Beach. His meadows
were looking splendid.

A number of the men visited Dr.
Coombe's place on the burned land.
The doctor and his family are very op-
timistic as to the future prospects.
His potatoes were looking fine. He
also has buckwheat, turnips, cabbage,
beets and corn planted. For the first
breaking things certainly look encour-
aging.

H. C. Brewster and family came up
on the last boat. Mr. Brewster brought
with him the material for constructing
a telephone line between his cannery
and the government line at Long Beach.
He expects to buy fish from Barkley
Sound this summer.

Rev. Mr. Ross, Indian missionary at
Ucluelet, came up to spend a couple of
months at Ahouset, assisting Mr. Miller
at the boarding school.

E. Riley has returned from Victoria.
The day school has closed for the
holiday and the teacher, Miss McKin-
non, has returned to Victoria. She has
proved a splendid teacher and all re-
gret that she will not return this fall.

BOOK OF POEMS

BY LOCAL AUTHOR

Donald A. Fraser Has in Press
Volume of
Verse.

A number of Victorians have at dif-
ferent times published books but not
many books of poems have emanated
from this city. Clive Phillips-Wolfe,
who usually lives in or near Victoria,
has published books of verse and the
author of the Songs of a Sourdough is
almost a Victorian. The latest author
to be heard from is Donald A. Fraser,
whose new book, "Pebbles and Shells,"
is now in press and will be ready for
distribution very soon.

Mr. Fraser is well known in this city,
where he has lived for many years and
where his father, Rev. Donald Fraser,
was pastor of the First Presbyterian
church. At present he is a member of
the city teaching staff, and part of
his leisure hours he spends in writing
both prose and verse. The majority of
the best publications of the United
States and Canada have at one time
or another published one or more of
Mr. Fraser's poems or prose selections.

"Pebbles and Shells" is being pub-
lished by William Briggs, Toronto, and
very shortly copies will be on sale at
the local bookstores, where orders may
be left.

VICTIM OF REALISM.

Tragic Death of Living Picture Model
in the Seine.

A terrible fate has overtaken a young
acrobatic named Ontreis, who earned a
living by posing for cinematograph
pictures, says the Paris correspondent
of the London Chronicle.

He was engaged by an operator to
fall into the Seine and pretend to
drown after a fierce struggle for life.
In accordance with his instructions he
tumbled in, and on coming to the sur-
face he splashed and threw his arms
about in such realistic fashion that the
cinematograph operator on the bank
was moved to shout, "Bravo! Keep it
up! Splendid!"

The spectators on the bank, who took
in the situation, also joined in with
applause as they watched the man
struggling in the water.

A steamer loaded with passengers
came along in the midst of these pro-
ceedings, and so interested were all on
board that the vessel was brought to
while the people applauded.

When the scene had been enacted for
a few minutes, the man in the water
threw up his arms in a last frantic
outburst and disappeared.

Murmurs of admiration at his re-
markable acting were heard on all
sides, and the people on the steamer
stood

SPIRIT II. WINS

THE SECOND RACE

Defeats Alexandra by 2 Minutes 23 Seconds—Deciding Contest To-morrow.

(Times Leased Wire.)

Seattle, Wash., July 6.—Sailing grandly at every point in a race that was close to the point of heart-breaking for crews and spectators alike, the yacht Spirit II., of Seattle, yesterday took the second contest of the international series for the Dunsuir trophy from the Alexandra of Vancouver. Skipper Ted. Geary brought the Seattle craft across the finish line two minutes 23 seconds ahead of the rival flyer, but the time does not indicate the keenness of the struggle. It was in doubt until the last five minutes.

Not a fluke marred the second meeting of the great little speed boats. The Spirit II. won purely on her sailing qualities and Skipper Deane, of the Alexandra, had no excuses to offer when the contest was over. It was speed against speed, seamanship against seamanship. It was fire against Geary, and Geary won.

Each of the yachts has taken a race of the two out three series. The deciding contest will be held to-morrow afternoon over the same course.

PARKS ABOLITION

WAS NOT TAKEN UP

By-law to Put End to Board Left Over at Mayor's Request.

The city council meeting last night was a record for brevity but a good deal of work was done, and the meeting was adjourned until to-night, when the water question is to be taken up.

The city engineer and city assessor reported on the cost of the widening of Oak Bay avenue, on the north side from MacGregor avenue to Jubilee avenue, and on the south side from MacGregor avenue to Rockland avenue, with necessary expenditures of land, grading the roadway from Fort street to MacGregor avenue and constructing permanent walks, on the south side from Verinder avenue to Foul Bay road and on the north side from MacGregor avenue to Foul Bay road. The total cost is estimated at \$17,119.25, of which the city's proportion is to be \$5,895.

A by-law was put through for the paving of Cormorant street with granite. The work will cost \$9,558 in all.

Ald. Stewart's by-law for the abolition of the parks board was held over at the request of the mayor.

The contract for the iron work of the new incinerator was awarded to Hutchinson Bros. at \$65,100. The only tender was from the Victoria Machinery Depot and was for \$1,500.

The water commissioner recommended that tenders be called for sand for the filter beds, and this will be done.

At the request of the sanitary inspector an inquiry will be held next Monday evening into the condition of "a most unsanitary stable" on the southeast corner of Yates and Vancouver streets. The owner is out of the city but his agents say they are willing to abide by the orders of council.

The Western Canada Irrigation Association sent an invitation to attend its third annual convention at Lethbridge on August 5th and 6th.

The report of the streets, bridges and sewers committee was adopted as follows:

1. Recommended that the entire work of local improvement, proposed to be carried out on Fourth and Fifth streets, off Mount Tolmie road, for which the property owners interested are to be assessed for the total cost, be done by contract.

2. Recommended that the city solicitor be instructed to take legal proceedings against the owners of property on the south side of Belton avenue, Victoria West, whose property encroaches on said avenue, to compel them to cause the removal of their fences back to the proper street line, and that when these fences are all moved back the space between the permanent walk on said street and the fences be filled up to the proper grade of the sidewalk.

PRAIRIE CROPS.

Reports Continue Favorable—No Rust in Southern Manitoba.

Winnipeg, July 6.—Reports of the condition of growing crops continue favorable. In view of the great heat following the heavy showers last week and of stories of rust in North Dakota, some anxiety was felt as to the making of its appearance in Southern Manitoba, but so far no reports to that effect have been received, and spring wheat on light lands appears to have picked up remarkably during the past fortnight.

The Manitoba crop is admittedly behind Saskatchewan and Alberta and is some days later than the average year, but under present weather conditions it is gaining ground rapidly, and should these continue there is little danger of an unduly late harvest.

Reports from Saskatchewan and the Alberta spring wheat country continue very favorable, and prospects are for a very bountiful yield.

WINNIPEG ASSESSMENT LEVY.

Rate is Fifteen Mills on the Dollar, Being the Same as Last Year.

Winnipeg, July 6.—The city council last night passed the assessment levy for the next fiscal year. The total amount to be levied is \$1,211,460, and the rate is fifteen mills on the dollar, the same as last year. The amount levied last year was \$1,741,875.50. The ratable assessment this year is \$1,072,297, 320, which at fifteen mills brings in \$1,608,445.50. Then there is the revenue business tax on \$2,082,774 at six and two-thirds per cent, which amounts for \$208,551.69, bringing the levy to \$1,816,997.19.

A MONEY-SAVING OCCASION

Big Price Reductions to Secure Muchly Needed Floor Space Offers You an Excellent Opportunity to Furnish for Little

THIS stock clearing move of ours is a money-saving occasion you shouldn't fail to investigate. To gain muchly needed space—space we must have for incoming goods purchased on the last Eastern trip of our buyer—we are clearing every piece of furniture of which we have but one or two of a kind. Exceptional reductions are offered and when you remember that these are not specially purchased "sale" goods, but regular Weiler Quality lines, you'll better appreciate the great opportunity to save.

DO NOT FAIL TO VISIT THIS STORE TO-DAY—YOU CAN'T AFFORD TO MISS IT

There is room in most every home for one or more of these dainty furniture pieces and here is the one occasion of the year when you can get goods of such superior quality at such little prices. The quality of every piece is backed by our guarantee of absolute satisfaction. The upholstered pieces are the work of our own upholstering department in nearly every instance.

A SMALL CASH PAYMENT SECURES ANY OF THESE OFFERINGS FOR YOU

Perhaps you are not prepared to purchase such items just at present. In such a case a small cash payment will secure them for you and we shall deliver in a few days. Or if you prefer other satisfactory arrangements may be made. By all means see these offerings—do not spend a cent until you have seen the offerings of this sale.

FURNISHERS OF CHURCHES SCHOOLS BOATS

WEILER BROS. HOME FURNISHERS SINCE 1862.

FURNISHERS OF HOMES CLUBS HOTELS

RATEPAYERS TO EXPRESS VIEWS

(Continued from page 1.)

Equimalt Company adopt its other alternative and refuse to accept the offer and arbitration ensued, the award of the arbitrators would be binding upon all parties under the terms of the act of 1892 and the sum so awarded payable within six months from the date of the award, etc. If the award was in excess of an amount the electors approved a like difficulty would be created. In view of the amendments of 1905 practically two options have been given to the Equimalt Company, the first with reference to the offer which they may either accept or reject, but acceptance by the company implies payment by the city, and payment by the city cannot be made until the ratepayers have approved of financial arrangements therefor.

"In the second event of arbitration and award the company (the city consenting) again may exercise an option of not insisting upon payment of the amount of the award and may elect to keep its works. But suppose the company to be satisfied with the award and to insist upon payment of the amount thereof and the ratepayers to refuse approval, again a large liability would be imposed upon the city without the means for the discharge thereof.

without the means for the discharge thereof.

"The whole plan of the act as amended in 1909 contemplates that the ratepayers should first be consulted and the moneys estimated to be required for any particular scheme authorized to be raised for the purpose. It cannot be assumed without express words to have been the intention of the legislature to have enabled the city at pleasure to harass private property owners and compel disclosure of their private business affairs and property values in compulsory proceedings merely for the purpose of inspection and after determination by the city as to the advisability of the taking thereof, and the act does not, it seems to me, in express words authorize such a proceeding. It should be a ground for an injunction in favor of the Equimalt Company against the city's proceeding, that any offer made was an illusory offer made without consent or approval of the only authority capable of sanctioning and carrying out same, namely, the persons entitled to vote on money by-laws.

"Under the circumstances I have not revised the terms of proposed offer to the Equimalt Company."

FARMER SHOTS HIMSELF.

Gretna, Man., July 6.—Gertie E. Fisher, an old farmer living east of Neche, committed suicide Sunday night, deliberately walking over the international boundary into Manitoba and blowing off his head with a gun.

Sylvester's Henfood for Poultry

Is a mixture of all grains so well blended and containing all necessary grits and shells for the production of eggs. Try a sack if you want your poultry to lay. Per 100 lbs. \$2.25
 SYLVESTER FEED CO. Tel. 413 709 YATES ST.

SHIP CHANDLERS. Phone 41. 1214 WHARF ST.

WINS FIRST POINT.

Thaw Ordered Transferred From Matteawan to White Plains Jail.

White Plains, N. Y., July 6.—Harry K. Thaw, who shot and killed Stanford White, to-day won the first step of his fight for discharge from the Matteawan asylum.

Plains jail. The motion was opposed by the attorney-general, but was granted by Judge Mills.

The attorney-general, it is said, will petition for a change of venue. In the event that this petition is granted, Judge Mills announced he will order Thaw returned to Matteawan.

Attorney Morschauer, counsel for Thaw, petitioned for the transfer of his client from Matteawan to the White Plains jail.
